You know summer's really hit its stride when you see apricots like these. All plump and golden-yellow . . . with juicy "sunny" flavor that's come to full peak right on the trees! Apricots are delicate, so ours are rushed here soon as they're picked off the trees. And at Safeway we keep apricots cool, dry and out of the sun. You'll find both "finger-ident" apricots for eating fresh . . . and the slightly firmer fruit that's ideal for canning . . . at Safeway now.
