

New Housing Bill Said Extension Of Past Programs

Washington — (UP) — The housing bill, which stirred up a last minute ruckus before it was passed by Congress is a relatively simple measure compared to the major overhaul of the housing law last year.

Essentially, the bill is just an extension — with some modifications — of past housing programs, ranging from home mortgage insurance to cooperative apartments.

The bill's key sections provide for:

Expansion in Authority
1. A \$4,000,000,000 expansion in the Federal Housing Administration's authority to insure

home mortgages.
2. Forty-five thousand public housing units to be built in the coming year. The administration had asked for 70,000 over a two-year period.

3. Lifting the restriction that public housing be built only for low income families displaced as a result of federally approved slum clearance programs.

As always with the housing bill, the main battle centered over public housing — the program started in 1949 to give federal assistance to communities to provide housing for low income families.

Like May Get Away
President Eisenhower lost out on these points but he may get his way after all simply by not using the provisions he finds objectionable.

AUTOMATIC IN 20
Chicago — (UP) — Prof. Dallas W. Smythe of the University of Illinois predicted at the 50th annual meeting of the Advertising Federation of America that "the bulk of American industry will be automatic inside the next 20 years."

Mr. Eisenhower had warned Congress that it might face a special session if it did not produce a satisfactory housing bill. But House Republican Leader Joseph W. Martin Jr., (Mass.), said the final measure approved yesterday apparently is good enough to rule out that possibility.

Irate Farmer Slays Attorney

Carlisle, Pa. — (UP) — A tall, gaunt farmer pulled a .38 caliber revolver from his pocket and killed an attorney and wounded three others, including the judge, in a courtroom yesterday.

Percy Haines was charged with murder shortly after the death of John D. Faller Jr., 41. Judge Mark E. Garber and attorney George Black, 46, were recovering. But Haine's 60-year-old estranged wife was in critical condition.

The shootings occurred minutes after Garber ordered Haines to pay \$50 a month support to his divorced wife, Lulu, who had obtained a Reno divorce.

Haines leaped to his feet and shouted, "It's a raw deal." He pulled out the revolver and began firing. The first shot struck Mrs. Haines in the abdomen. In quick order, Haines then fired at Faller, Black and the judge. Haines was subdued by his son, George, and George Geiger, 30, secretary to the judge.

The shootings occurred just 18 months after the courtroom slaying of Warren County Judge Allison D. Wade by Norman Moon, also a principal in a support

TV Actors Scheduling Film Strike Friday

New York — (UP) — A strike is shaping up on television.

The Screen Actors Guild has scheduled a nationwide strike against producers of television entertainment films.

The walkout, set to start Friday, would hit big name shows produced purely for television. It is believed the strike could effect up to 70 per cent of the shows produced only for television.

However, most producers have film backlogs, some of them with shows filmed up to 12 weeks in advance. And the producers could switch to live shows.

The Guild said the strike has been called because producers refused a union demand for pay to actors for the second run of films on TV.

Fire Hazard Caution Issued by Fire Chief

Medford Fire Chief Gordon Barker today urged residents to eliminate fire hazards of dry grass and accumulations of rubbish, and reminded citizens that burning permits are required year-around.

Chief Barker said permits may be obtained at the chief's office. Burning is permitted only in residential areas outside Nos. 1 and 2 fire zones, except in approved incinerators, Barker said. Permits are issued subject to weather and humidity conditions.

He pointed out that burning garbage is prohibited by ordinance and that burning is not permitted after dark.
