You can buy this Sirloin Steak only at Safeway

for one reason...
it's aged as only Safeway can do it

PROPER AGING is reason No. 1 why you'll find your best meat value at Safeway! For example: Each Sirloin steak you buy at Safeway is aged so you taste its full natural tenderness and flavor. To assure you properly aged meat, Safeway built in this area a million dollar Central Meat Plant. Here Safeway meats are held in air-conditioned aging rooms, at controlled temperatures, the exact number of days required to develop peak goodness.

CLOSE-TRIMMED, TOO! Safeway sells boneless Sirloin steak—steak that is trimmed (trimmed before weighing, so you save money) as you see in sketch at right. In addition to removing all bone, Safeway removes all gristle and tough meat. The steak you buy is tender, juicy center portion steak only—100% fine-eating meat. Safeway meat-trimming means better eating and better value!

...AND **TOP GRADES ONLY!** Each Sirloin steak you buy at Safeway is from U.S. Government Choice grade beef (actually, only meat of the top grades is improved by aging!). This tender, juicy meat is packed in sterilized boxes at our Central Meat Plant and delivered to Safeway stores by refrigerated trucks. At Safeway meat counters and at our self-service meat sections, you get the same quality!

Safeway Guarantees
each cut and kind of meat you buy. Our guarantee means that each meat purchase must please you completely or we return your money without fuss or quibble!
