

LEAPING FROM EIGHTH FLOOR of Newark, N. J., housing project, Lawrence Yudin, 45, is "stopped" by alert cameraman before he hits net held by firemen, volunteers. Although back was broken, Yudin is expected to live. (International)

On The Side

By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

Do you need an alarm clock to get you up on time in the morning? Do you have one of the regular alarm clocks or a "nagging" timepiece? One type of "nagging" alarm clock starts off with a belling ringing as in other clocks. Ten minutes later the bell rings again. Five minutes later a recording of a high shrill voice begins screaming, "you must get up—you'll be late!" This continues until the clock is turned off.

Maternity Shirt

Why do so many men have to look so sloppy when coatless? Army men go coatless in the summertime and present an extremely neat appearance. This is especially true of the British army men who manage to look extremely neat even in the heat of the tropics. There seems to be no good reason why a civilian can't appear presentable when minus a coat. Incidentally, I still can't go for the type of shirt that is of many colors and is worn outside the trousers. It has been very aptly nicknamed "the maternity shirt."

Gaelic Coffee

Am informed that about 20 Irish whisky distillers have gone out of business in recent years. How can the Irish whisky industry be made to prosper? The answer may be that it can be done by popularizing Gaelic coffee. John Koepler, justly celebrated San Francisco cafe maestro, formerly sold about six bottles of Irish whiskey a month at his Buena Vista Cafe. Now he sells 1,000 cases of Irish whiskey a year. Why? John says it is all due to serving Gaelic coffee. I will report on John's recipe for Gaelic coffee in an early issue. He has made quite a study of the drink.

Dangerous Change

Air conditioning is wonderful. However, proceeding from the hot atmosphere of the street on a summer's day to an air cooled place requires caution. A person who has been perspiring is in danger of suffering an attack of fibrositis. As you know fibrositis is a fancy name for a stiff neck.

Asking

Queries from clients. Q—How long have Mary Pickford and Buddy Rogers been married? A—Nineteen years. Q—Who originated the bargain basement? A—Gordon Selfridge of the celebrated London department store bearing his name. However, Selfridge, who was of American birth originated the bargain basement when associated with Marshall Field & Co., Chicago. After leaving that organization he went to London and started a store of his own.

Says He

Field Marshal Lord Montgomery recently said: "There will not be a nuclear war in any foreseeable future. I believe there will not be any outbreak of war and that our children will be able to grow up decent citizens in a peaceful world."

So They Say

Virgo (August 24-September

23) women never marry in haste. They think the matter over carefully before taking the march to the altar. The Virgo females are perfectionists. Everything in their place of residence must be just so. A Virgo wife's insistence on perfection can at times make life very difficult for a husband who likes to relax. Or, so say the stargazers.

Get It Right

The chief supporters of major race courses is not, as repeatedly alleged, the \$2 bettor. It is the \$10 bettor. At metropolitan tracks more \$10 tickets are sold than those of any other denomination.

Satellite Project Expected To Bring Space Trip Nearer

Washington — (U.P.) — Alan H. Shapley, world-renowned physicist believes the U.S. satellite project will add knowledge that will bring space flight nearer.

But Shapley said in an interview that "the possibilities of human flight in space are not changed by anything revealed at this time."

Shapley, formerly of Harvard University, is now connected with the National Bureau of Standards at Boulder, Colo. He is vice chairman of the U.S. National Committee for the International Geophysical Year.

40 Nations Taking Part

The planned satellite project is related to the "year," which is designed to study the earth and its neighbors. Some 40 nations are participating.

The satellite, about the size of a basketball, will be ejected about 300 miles into space where it will circle the earth.

"This project will increase knowledge concerning the environment through which space ships will have to traverse," Shapley said.

"Such information must be obtained before a space flight, and in this way the satellite project is bringing space flight nearer."

Oregon Airmen To Be Airlifted To Oklahoma

Portland — (U.P.) — Plans were being made today to airlift some 500 officers and airmen of the 403rd troop carrier wing from Oregon to Oklahoma for two weeks of active duty.

The men will be carried in C-124 Globemasters from Larson AFB, Wash. Training will start August 7 and end August 21.

RESTAURANT AIDS ESCAPE

Tampico, Mexico — (U.P.) — Business picked up in a Chinese restaurant Wednesday night when 20 prisoners knocked a hole in the kitchen wall from an adjoining jail, fled quietly through and escaped.
