**INTERNATIONAL STERLING FLATWARE PRICE POLICY ANNOUNCEMENT**

Most manufacturers of sterling flatware have now announced a new increase in prices—which is not surprising in view of the recent rise in the price of silver and other cost increases.

As in previous instances, we are reluctant to raise prices and have decided not to do so, although it means some sacrifice on our part.

This latest price increase moves many of the best patterns out of the \$20-\$30 price bracket for a six-piece place setting and raises the price structure of all patterns to a point that, in our opinion, will tend to retard sales.

Therefore, we are not raising prices on International Sterling flatware and you may continue to sell it with the assurance that you are giving your customers the finest value available in the industry.
