

### Accidents Bring Minor Injuries, Two Citations

Leland Donaca, 24, Ashland, received minor injuries in a three-car accident on the Phoenix-Jacksonville highway about 5:15 p.m. Sunday. State police said Donaca was riding in a car driven by Carol Jean Zemke, 19, Ashland.

Officers said the Zemke car apparently had stopped on the highway facing Jacksonville intending to make a left turn into a private driveway. A second car, operated by Gerald Valere Bailey, 22, Ashland, following, swerved left in an effort to miss the stopped car, a third vehicle, driven by Clarence Peter Olson, 43, route 1, box 358-A, Medford, was also heading toward Jacksonville and smashed into the back of the Zemke car. The first and third vehicles sustained minor damages. Bailey was cited for no operator's license, state police said.

**Driver Cited**  
Lavern William Johnston, 35, of 928 West Second st., was cited by state police for following too close in an accident on Highway 238, one mile west of Oak Grove school, about 12:03 a.m. Sunday.

The Johnston vehicle struck the back of a car driven by Heinz Otto Hoefle, 24, of Perrydale ave. The Heinz auto had stopped on the highway intending to turn left onto Perrydale ave. No one was injured.

Elizabeth Vessell, route 1, box 60-A, Jacksonville, called State police about 4:16 p.m. Sunday to report that a car had run off the road and rolled over in her squash patch. Officers said the car had been driven off by the time they arrived.

### Senator Johnson Leaves Hospital

Washington — (U.P.) — Senate Democratic leader Lyndon B. Johnson, who suffered a heart attack July 2, rested at his home today.

He was discharged from the Bethesda, Md., Naval hospital Sunday.

A neighbor, Dr. O. E. Reed, said the 47-year-old Texan looked better than before he went to the hospital.

A group of friends and neighbors gathered on Johnson's lawn Sunday to greet him when he returned home. Another neighbor, FBI Director J. Edgar Hoover, sent Johnson a "welcome home" telegram from La Jolla, Calif.

The hospital said "there have been no complications during the last month and he (Johnson) has made steady improvement." He plans to remain at his home here for several weeks before leaving for his ranch near Johnson City, Tex.

### 25 Persons Killed In Soviet Air Crash

Moscow — (U.P.) — Twenty-five persons including ten Swedish women visitors to Russia were killed Saturday when a Soviet airliner caught fire in flight, exploded and crashed near Voronezh, the official Tass news agency reported today.

The transport was on a regular flight from Stalingrad to Moscow when the accident occurred. A government committee of inquiry headed by Soviet Deputy Premier M. V. Krutchev already has arrived on the scene, Tass said.

Five crewmen and 20 passengers including 10 Swedish women were on the flight. The women were coming to Moscow at invitation of the Soviet women's Anti-Fascist Committee. The other 10 passengers were Russians, three of them members of the anti-Fascist Committee.

### TYPHOON DOWNGRADED

Tokyo — (U.P.) — Typhoon Hope was downgraded to a tropical storm today but still threatened Tokyo with strong winds. Air Force weather experts said winds up to 40 miles an hour were expected to hit the metropolitan area tonight. They said the center of the storm was 350 miles south of Tokyo, moving northeast slowly.

About 90 per cent of U. S. babies are born in hospitals.

### Table Rock

Edwin Taylor, who recently underwent major surgery at the Community hospital, is getting along nicely at his home here and is able to do some supervising of his farm work. He wishes through this column to extend his thanks to the neighbors and teen-agers who so graciously helped during his illness, and also for the many good wishes and cards received, while in the hospital.

Mrs. Kosterlos from Boston, Mass., is visiting at the home of her daughter, Mrs. Robert Sage. She is accompanied by her daughter, Miss Penny, who visited several years ago.

Thirty sprinkler heads run by a big pump set in the irrigation ditch are kept spinning almost every day, keeping more than 75,000 young trees alive and growing on the Orville Hamilton farm, where Gordon Kershaw is growing nursery stock.

Mr. and Mrs. Clyde Halfhill and young son, Curtis Clyde, are visiting home folks at the Abe Halfhill home. Clyde was recently discharged from the Navy, and came here from the Naval base at San Diego. His future plans are indefinite, but he intends to take several weeks rest, before getting back into the harness.

The hot days since the first of August, which old-timers call "dog days," seem to be bringing out many rattlesnakes. One recently was killed a few feet from the John Dickey house, which when discovered, was making a bee line for the door, causing John to gather up his dog and run with him, as he would rather get bit himself than have it happen to his dog, according to his wife. Several others in this vicinity have encountered rattlesnakes lately, some of them being the big timber species.

The Rodgers-Houston annual picnic held last Sunday at Tou-Velle park was attended by 41 relatives and friends, some coming from Klamath county and some from California. Mrs. Emma Houston was presented gifts honoring her 85th birthday.

It was with deep regret that we learned of the passing of Gus Newbury, well-known lawyer and resident of Medford and Jackson county. We first remember meeting him back in the 90's when he came to visit our one-room school as county superintendent. Tall and straight, and with an air of strict dignity, we wondered if he could ever be so tall, dignified, and hold such a responsible and paying position. Out on the playground, he put aside some of the dignity, and took part in the simple, but wholesome games played by the school children back in those days. Another time his height impressed me as we had gone to San Francisco to witness the coming into the Golden Gate harbor of the U.S. battleships which had been sent there to bolster the morale of the people in the quake-damaged city. This day they were having a big parade, with some 8,000 sailors and several bands from the fleet, marching up Market street. The sidewalks were jammed with people, any direction you looked there were thousands of people, yet we couldn't see a one we knew. We were beginning to be a bit lonesome, when of a sudden we glimpsed a tall figure, head and shoulders above the rest, working his way toward us through the crowd, and sure enough it was Gus. None other in all those thousands could be taken for him.

He had a high sense of humor, and we remember a story he told about some sort of lawyers' meeting when a prominent man as a speaker defined the legal professions for the good of all mankind. Gus said he told the speaker a better definition would be "a parasite on the human race," one who makes his living off the mistakes and misfortunes of his fellowmen. Gus of course, didn't mean this. He was really proud of his profession.

H. W. Davison left Friday by plane for a visit with his son-in-law, C. W. Meyers, in Portland.

Kenneth Wyatt left here on Thursday to take up his work as school psychologist at San Lorenzo, Calif.

Most of the wood used for U.S. production of pulp and paper comes from 46,452,000 acres of commercial forest land.
