

On The Side

By E. V. Durling

(Distributed by King Features Syndicate, Inc.)

The liveliest town in Texas is now Galveston. There is a campaign on there to increase the popularity of the city as a pleasure resort. Gaiety, gambling and gals are featured. Crooked gambling is not tolerated. The visitors must be given a fair deal. It is interesting to note that the gambling machine known as the "one-man bandit" is barred. This, according to those dominating the Galveston gay life situation, does not give the player a fair break.

Something New
A method making it possible to mature whisky in eight and one-half hours. That's what a Scotsman named Tom Sutherland has originated. By Sutherland's method, whisky, in the brief period aforementioned, can be made as mature as three year old whisky is at present. Experts have been unable to distinguish between the 8 1/2 hour old whisky and the three year old whisky. However, the law in Scotland says all whisky must be matured in a cask for at least three years before it is sold at retail.

Asides
It is still my opinion that organ music gives a restaurant the atmosphere of a funeral parlor. The ideal dinner music is that furnished by a string quartet. . . The first automobile in which I rode at the rate of over 60 miles an hour was a Stutz Bearcat.

In-Laws
If a girl's father is henpecked, her future husband will probably suffer the same sad fate. So claim some experts on the subject of life among the married. Keep it in mind, young fellow. Before you definitely accept a girl's proposal of marriage, check on how her mother handles her father. Also keep in mind that a woman who dominates her husband too much is likely to make a difficult mother-in-law.

Knitting
Does your wife do any knitting? How speedy is she? How many rows can she do in a minute? How long does it take her to knit a pair of socks? There has been originated a home automatic knitting machine that will knit 30 rows and 5,000 stitches a minute. With this remarkable gadget a pair of socks can be knitted in 35 minutes.

Mayflower
I met a woman who proudly and repeatedly said her ancestors came to this country with the Pilgrim Fathers on the good ship Mayflower. I asked her how many passengers were on the Mayflower. The query baffled her. So I told her the answer was 102. I wonder how many people in the United States can now truly say their ancestors came over here in the Mayflower. There must be thousands of them. Consider the fact that Mr. and Mrs. John Alden (Priscilla Mullen), who came over in the Mayflower, alone had 11 children.

Please Note
Millionaire actor Humphrey Bogart and his wife, Lauren, have celebrated their tenth wedding anniversary. They expressed their belief that their adherence to the old fashioned idea of a double bed has been a major factor in the success of their marriage. That could be. On the other hand Katherine Cornell and Guthrie McClintic have separate beds on different floors in the same house—that is, each has a private apartment. Yet Katherine and Guthrie have been happily married for over 33 years.

Literary Note
Marlene Dietrich is writing a book on the subject of the preservation of beauty. That could be good. Marlene, now 50, appears to be about 35. She has never had a face lifting operation. So she doesn't have to wear her hair long to conceal the operation scars near the ears as some women do. I believe part of the secret of Dietrich's eternal youth is that she has a very active mind and has always been interested in the problems of other people.

Happy Husbands
Have you a bachelorette in your family? Has she studied how to make a husband happy? In some recent research involving thousands of single young women it was found 71 per cent had studied how to make a husband happy.

band happy. However, their enthusiasm as to learning how to cook was not so marked. Only 50 per cent had studied cooking. Also less than 50 per cent had studied infant care. By the way, perhaps you have a bachelor son. Has he done any studying on how to make a wife happy?

Neckties
Monsieur De Givenchy has said, "The signature for a man's clothing should be his tie." Quite so. I have noticed that women comment more on a man's tie than any other article of his apparel. By showing unusual taste in neckwear, a young fellow can often get off to a good start in an effort to win the affectionate regard of a beautiful female. It is not a bad idea for a man to ask a woman to select his ties.

Plane Hits Tree Killing SF Pilot

Stateline, Nev.—(U.P.)—A San Francisco man was killed and his companion was seriously injured yesterday when their plane crashed into a tree in the High Sierra just above Lake Tahoe.

Killed in the accident was Willard E. Holt, 22, a Pan American World Airways employee. His 19-year-old wife is expecting their first baby in a few weeks.

Seriously injured was James C. Headrick, 26, an employee of the Nystrom Aviation company of Palo Alto. He came here three weeks ago from Chattanooga, Tenn. He was rushed to Carson City hospital for surgery.

Witnesses said their Piper Tri-Pacer touched down on the abandoned Tahoe Village airstrip, then climbed back into the air.

Constable William Stambaugh of Tahoe Village said the engine "appeared to be turning over smoothly but it seemed to lack enough power to clear the mountains on the east side of Tahoe.

The plane smashed into the base of a tree near the Kingsbury Grade, only three feet away from a tent occupied by Tom Baleria of Babbitt, Nev. Baleria was unhurt.

The plane had taken off from Reno yesterday morning.

Kern County Shaken By Light Earthquakes

Bakersfield, Calif.—(U.P.)—Two light earthquakes jolted many Kern county residents last night but authorities said no damage or injuries had been reported.

Police spokesmen said they believed the tremblors were after shocks of a major quake that crumbled the Bakersfield business district and killed two persons three years ago.

The shocks were felt shortly after 7:10 p.m. (PST).

Nude British Dancer Told To Remove Shoes

London—(U.P.)—British censors, who allow models to appear on the stage in the nude if they don't move, apparently don't go for halfway measures as far as unclad girls are concerned.

Dancer Denise Vane said she sent the Lord Chamberlain's office pictures of her poses and was told they would be just fine if she removed her shoes.

The shoes were all she was wearing.

Court Records

DISTRICT COURT

Alta Alice Kelly, violation of basic rule, \$10 bail.

Merville Edson Morse, failure to stop at stop sign, \$5 bail.

Suzan Ball Rites Will Be Tuesday

Hollywood—(U.P.)—Hundreds of Hollywood personalities are expected tomorrow to pay their final respects to Suzan Ball, 22-year-old actress who fought a gallant but losing battle against cancer.

Many of the same personalities last night attended rosary for "Brazilian Bombshell" Carmen Miranda, who died of a heart attack Friday about 12 hours before Miss Ball succumbed.

Miss Ball's body will lie in state from 9 a.m. to 12 noon tomorrow at the Church of the Resurrection in Forest Lawn Memorial park in Glendale.

Dr. Louis H. Evans, former minister of the First Presbyterian church in Hollywood, will conduct funeral services. Burial will follow.

The rosary for Miss Miranda was recited at the Church of the Good Shepherd in Beverly Hills. The Brazilian government is making arrangements to fly her body to Brazil on Wednesday for burial.

PERMANENTS BANNED

Iphoh, North Malaya—(U.P.)—A school principal here says girls with permanent waves are reluctant to participate in sports, for fear they will muss their hair. She banned permanents for this reason.

Around Hollywood

By ALINE MOSBY
United Press Correspondent

Editor's note: Aline Mosby is on vacation. Today's guest columnist is Jim Henaghan, a magazine writer and Hollywood columnist. Recently Jim started Hollywood by turning up as the producer of a \$7,500,000 movie, "Gettysburg," starring John Wayne. How did he do it?

By JIM HENAGHAN
Written for the United Press

Hollywood—(U.P.)—The other day there was a big story in the paper that I was giving up the profession of newspapering to become a producer.

Ever since then most of my friends, as well as a lot of people who hate me, have asked questions about how a fellow goes about this sort of thing.

Like Josephine, the girl down at the drugstore where I get my breakfast every morning.

"What's all this baloney," she said, "that I heard about you becoming a producer?"

Beverly Hills Mansion
I wasn't sore at Jo, but felt it was time she realized my social position had changed. It all has to do with a state of mind. I mean, a guy can hang around Hollywood for years, like I did, carrying his own shirts to the laundromat, and suddenly he looks at a palatial estate in Beverly Hills and says, "Why don't I live there?"

And so you decide to be a producer.

You go to lunch at Romanoff's, and when the waiter brings the bill you don't even change color; you just write something on it and walk out like you had a charge account, and on the way out you clap Mike Romanoff on the back good, so his monocle falls out. That way he thinks he knows you.

Then you go to previews, and stand out in front smoking a cigar. When the crowd comes out, the pale ones will be the producer and his help, so you amble over and shake your head and go "Tch, tch, tch." Or possibly, "Whew."

You walk around all day with Variety and the Hollywood Reporter in your pocket. You're seen walking out of big office buildings in a hurry. You send lots of telegrams. They can be about anything, it doesn't matter much what, to Zanuck, Schary, Hartman and Jack Warner.

You wear tailor-made clothes, drive a Jaguar, and rub your chin a great deal.

It's as simple as all that. And there's an even simpler way. You start out as a messenger boy. You get to work early, and you stay late, and pretty soon you're in the mimeograph room. Then you get a job in the cutting room, and pretty soon you're a cutter, and then a third assistant director, and so on. And at the end of 20 years, you marry the boss's daughter, and you get to be a producer.

How did I do it? You don't think I'm going to tell that, do you?

Socialite's Body Found in Pasture

Kansas City, Mo.—(U.P.)—A grief-stricken husband said today he was sure that more than one sex fiend was involved in the murder of his young socialite wife whose unclothed and battered body was found Sunday in a pasture.

Automobile dealer William R. Allen Jr. said his pretty wife, Wilma, "was a reserved woman" but "would put up a real fight" against anyone trying to force his way into her automobile. He said he was sure it would have taken more than one man to subdue her.

A three-day search for the 34-year-old mother of two sons came to an end near Stanley, Kan., Sunday when two farmers

looking for a lost cow stumbled on her bound body in a pasture thicket.

The spot where the body was found was 15 miles from her Kansas City, Mo., home and 23 miles from where she was last seen in a shopping district following a beauty shop appointment last Thursday. The death spot, 100 yards off U.S. Highway 69, also was only a few miles from where young Bobby Greenleaf was killed less than two years ago.

First inauguration ceremony to be broadcast was that of Calvin Coolidge in 1924. The "national" network at that time consisted of 24 stations.

High Tension Wire Fatal To Three

Newark, N. J.—(U.P.)—An expectant mother, her 10-month-old nephew, and a man who sought to aid them were electrocuted Sunday night by a storm-tossed high tension wire.

Police said Mrs. Fanny Reed, 35, Newark, with other members of a swimming party, sought shelter in a panel truck during a storm Sunday night.

A 4,000-volt wire, snapped by the storm, fell on the truck and Mrs. Reed's sister, Mrs. Doris Patterson, 32, her son William, 10, and his friend, Terry Williams, 12, all of Newark jumped

panic-stricken from the truck. When Mrs. Reed jumped out the rear with the child in her arms her foot struck the bumper and both were electrocuted. John Gomez, 24, a Korean war veteran, rushed to their aid and was killed when he touched the bodies, police said.

An average railway freight train in the U. S. in 1918 had 34.4 cars. The number has increased until the average number now is 54.5 cars.

About 96 per cent of the physicians in the United States are men.
