Step in . . . and command the most modern truck power on any job!

New Chevrolet Task-Force Trucks

Seven new "high-voltage" high-compression valve-in-head engines!

Here's hour-saving, dollar-saving power for your job . . . the biggest choice of engines in Chevrolet truck history! And they're the most modern engines in the industry!

You've got it good under the hood with a new Chevrolet Task-Force truck! You get the most modern truck power your dollars can buy—and exactly the right power for your job. With two new V8's and five new sixes to choose from, you can pick the power that does your kind of hauling with low ton-mile costs and hour-saving efficiency.

Shortest stroke V8's in any leading truck!

Both of Chevrolet's new truck V8's have an ultra-short stroke—shortest of any V8 in any leading truck. They're of modern oversquare design, which means that the piston stroke is smaller than the bore. The result is less piston travel per mile . . . longer engine life. Also, Chevrolet's compact truck V8's deliver exceptionally high horsepower per pound of engine weight. More power is actually available for hauling your loads!

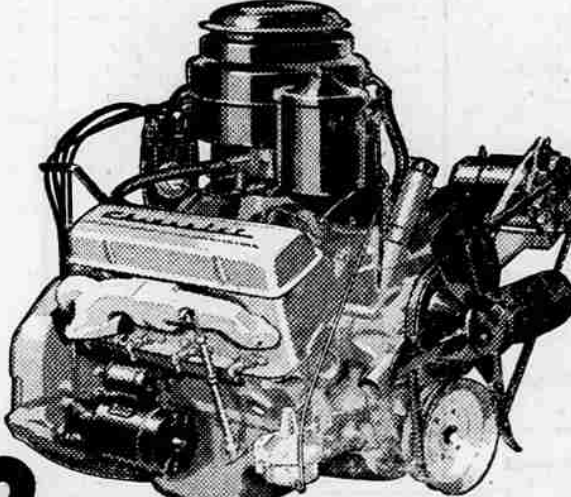

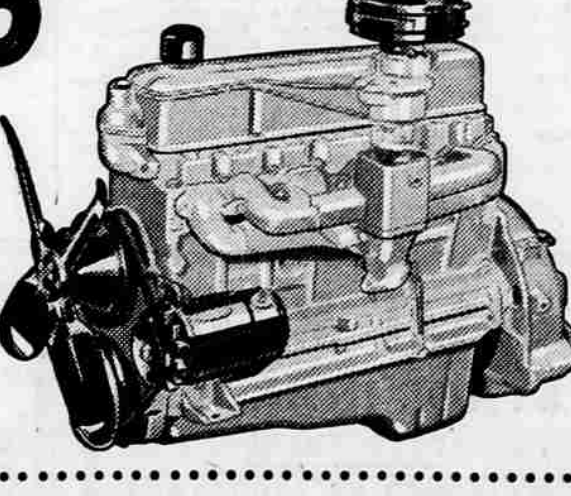

A modern 12-volt electrical system

You get this great development in all new Chevrolet truck engines—both V8's and sixes. The 12-volt electrical system delivers twice the punch for quicker cold-weather starting (up to 30% faster cranking speed). It also provides a hotter, fatter spark for better ignition, and gives you a greater electrical reserve supply.

New, wider choice of transmissions, too!

Here are transmissions to meet every trucking need. You can have new, gas-saving Overdrive as an extra-cost option in 1/2-ton models. Or—in 1/2-, 3/4- and 1-ton models—proved truck Hydra-Matic is available to free you from shifting and save you time in traffic (optional at extra cost). Or you can choose from smooth-acting, quiet-running 3- and 4-speed Synchro-Mesh transmissions. Come in and command the most modern truck power for your job!

V8 or 6 you get the right power for your job!

Year after year . . . America's best-selling truck!
