## Patterson Clashes With Thornton on OLCC Probe Details Attorney General Wants More Data

Salem — (U.P.)—A clash that sounded on the political side broke out between Gov. Paul L. Patterson, Republican, and Attorney General Robert Y. Thornton, Democrat, today over a recent Oregon Liquor Control Commission investigation into charges of bribery and corruption on the part of a few of its personnel.

**Asks for Details**  
Thornton formally asked the governor for details of the report Howard Bobbitt and Robert McGuire made for the Liquor Control Commission.

Gov. Patterson replied today that Thornton has all the information that he or the Multnomah county district attorney has in the investigations.

Marion County Circuit Judge George Duncan ruled yesterday that the OLCC cannot be compelled to disclose the contents of the McGuire investigation into recent charges of alleged bribery and pay-offs inside the liquor commission.

Thornton said: "Since Gov. Patterson and the attorney for the liquor commission have made statements to the press concerning the court's decision, I wish to reply by pointing out that this decision does not settle the broader public question, and it is this: Why have the liquor commission and Gov. Patterson been fit to keep what is properly public information away from both the attorney general and the public?"

**Patterson's Reply**  
To this Gov. Patterson replied: "The attorney general has all the information that this office of the Oregon Liquor Control Commission has. He has a copy of the report this office received. Apparently what he wants is the work sheets from which the investigators made their reports. That would be like demanding of a reporter to see the notes upon which he has based the story he writes for his newspaper."

The governor added strongly: "The attorney general has not presented any evidence that the district attorney of Multnomah county has been derelict in his duties. Until he does, the jurisdiction in these matters is in the hands of the district attorney."

Gov. Patterson added: "I have no information, secret or otherwise, that the district attorney of Multnomah county or the attorney general does not have."

**Governor Refuses Comment**  
Asked if this was a matter of politics — Democrat against Republican — Gov. Patterson said: "I have no comment."

The governor said "the decision of Judge Duncan clearly holds that the power of subpoena to obtain information lies in the hands of the constituted authorities and this office and the liquor control commission are anxious to cooperate. The decision simply holds that the attorney general hasn't the power by mandamus to make his own or different investigation than is provided for by law."

Thornton said, when asked the same question, "there is no politics as far as I am concerned."

He added that in his statement asking the governor for added information, "I have spoken my piece and there it stands as far as I am concerned."

## Gov. Langlie Sticks With Prison Officials

Olympia — (U.P.)—Gov. Arthur B. Langlie stuck behind his institutions director and prison warden today as "competent men" he will not fire, and at the same time authorized the warden to "deal forcefully with disturbers and insurrectionists — even by extreme means if necessary."

The governor issued the statement today in the wake of the second riot at the prison in Walla Walla in six weeks. The Walla Walla Union-Bulletin had asked the governor to fire Dr. Thomas Harris, director of state institutions as a means for clearing up a bad situation at the prison.

## Weather

FORECAST: Fair and hot through Friday. Low tonight 55. High Friday 95-98.  
Temp.  
Highest Yesterday 96  
Lowest this Morning 52

**MOB TACTICS**—South Koreans jeer at U. S. Army troops at Hileah Compound in Pusan during demonstrations against the protection of Communist members of the Neutral Nations Truce Team. The troops, with the aid of tear gas and fire hoses, kept the Koreans out of the compound. New violence flared as some 100 demonstrators stoned American guards at the 5th Air Force Compound in Kunsan.

## ROK Reveals Trade Ban With Japanese

Seoul, Korea — (U.P.)—The Republic of Korea said today it had severed all trade relations with Japan in a move that plunged diplomatic relations between the two nations into deeper crisis.

In Washington, American officials said the trade ban apparently violates part of the 1954 U. S. agreement with the Republic of Korea.

That agreement provided that Korea would buy supplies "wherever in non-Communist countries goods of required quality can be obtained at the best price." The provision was designed to make Korea buy some of its supplies from nearby Japan.

A spokesman for the Korean Office of Information said the trade ban was included in a formal action banning travel by Koreans between the two nations and declaring that relations with Japan were "reaching the breaking point."

Japanese business circles and government officials in Tokyo said they were not surprised by the trade ban but they refused to comment until officially notified. The Foreign office planned to send a representative to the ROK Diplomatic Mission Friday seeking clarification.

## Washington Cannerymen Reject Pear Offer

Wenatchee, Wash. — (U.P.)—The board of directors of the Washington Canning Pear association yesterday turned down a cannery offer of \$67.50 per ton for Bartlett pears.

Director Desmond Shearer said the vote was "almost unanimous" to hold out for the \$70 price agreed on by the association members earlier.

The group originally had asked \$75 a ton but dropped the price when canneries refused to buy. Shearer said any drop below \$70 would "disturb normal levels" between California and Washington. The California growers are getting \$75 a ton.

## Yreka Girl, 15, Gets Three-Year Probation

Yreka — (U.P.)—A 15-year-old Weed, Calif., girl today was under a 60-day suspended jail sentence and a three-year probation for driving while unlicensed.

The girl was previously charged with manslaughter in connection with the auto accident death of Mrs. Beatrice Duell, Tulelake, Calif., last April. Judge Kenneth Stone dismissed the manslaughter charge and sentenced the young defendant on the license count.

## Coastguardsman Waits Commission Clearance

Washington — (U.P.)—Seaman Apprentice N. Pierre Gaston said today he feels sure the Coast Guard will clear him for his ensign's commission despite his mother's past associations with groups alleged to be subversive.

Gaston said in an interview, he is "waiting patiently" as a file clerk and typist in Washington Coast Guard headquarters. He said he harbors no grudge for the delay.

## Neuberger Claims Misrepresentation By Rep. Sam Coon Support for John Day Dam Declared Wrong

Washington — (U.P.)—Sen. Richard L. Neuberger (D-Ore.), today accused Rep. Sam Coon (R-Ore.), of misrepresenting the position of some Oregon organizations in testimony about the John Day dam project.

Neuberger made the charge in a letter to Chairman Clifford Davis (D-Tenn.), of a house subcommittee on flood control. Coon testified before the subcommittee on July 26.

**Favors Federal Operation**  
Neuberger favors federal operation of the dam which has been authorized by Congress. Coon favors legislation which would put the project under the administration's "partnership program" for joint development by the government and private utility companies.

Neuberger said Coon told the Davis subcommittee that he had "quite a list of organizations favoring his 'partnership' bill. He said Coon listed, among 53 groups favoring the partnership construction, the Port of Umatilla, Ore. and the Portland Commission of Public Works.

**Letters Deny Stand**  
Neuberger told Davis he has letters from Rear Adm. Gordon Rowe, manager of the Port of Umatilla, and Thomas P. Guerin, manager of the Portland Dock Commission, denying that their organizations have taken any stand in the controversy.

"It is obvious," Neuberger told Davis, "that these emphatic corrections by Adm. Rowe and by Mr. Guerin throw doubt over the relevance of the whole list of organizations read by Mr. Coon before your subcommittee as ostensibly supporting his bill."

## Ex-Radio-TV Official Defies Red Probers

New York — (U.P.)—A former top echelon radio and television executive defied attempts of a House Un-American Activities Subcommittee today to probe into his alleged Communist past.

The balky witness, Tony Kraber, 50, was formerly program director of Dumont television network and was director of special events for the Columbia Broadcasting System in 1951, according to his testimony.

He was the 19th show business personality to appear before the investigating group, headed by Rep. Francis E. Walter (D-Pa.), during a four-day series of hearings at the federal courthouse. Walter said he expects to wind up the hearings today.

Salem — (U.P.)—The first completed section of the new Santiam highway at Salem is open, according to the State Highway Department.

## Rioting Flares in Casablanca Over Return of Sultan

Casablanca, Morocco — (U.P.)—Rioting flared in Casablanca today in a bloody prelude to the country wide demonstrations called for Saturday to force the return of exiled Sultan Sidi Mohammed Ben Youssef.

French Premier Edgar Faure met urgently with his cabinet in Paris to study the situation, but critics said the fresh blood being spilled in the protectorate meant a compromise offer had come too late.

**Summoned to Meeting**  
Resident General Gilbert Grandval was reported summoned to Paris to meet with Faure Friday afternoon in a last minute effort to avert the expected street fighting between terrorists and French troops who have poured into the protectorate all week.

In Casablanca, focal point for the anti-French terrorism, "extremely violent" tracts were being circulated by "The Black Crescent" terror organization calling for a 24-hour general strike and uprising on Saturday.

The rioting began about midnight when Moroccans attacked a car driven by a European, Seraphim Zimmermann, and tried to lynch him. They overturned his car and set it afire but a grenade-throwing French patrol saved him and took him to a hospital.

## Ike Concentrates On Oil Painting

Fraser, Colo. — (U.P.)—President Eisenhower put in two hours of concentration on his latest oil painting today before heading for his favorite trout stream in a determined effort to better his own record catch for the year.

Meanwhile, his seven-year-old grandson, David, wearing a Davy Crockett coonskin cap, played catch with a softball and sat on the corral fence with ranch hands just like a grown up cowboy.

Mr. Eisenhower landed a two-pound 17-inch trout on his first effort yesterday and apparently was trying to top it today.

## Linda Malloroy, David Wolfolk Receive Champion Showman Honors at County Fair

Champion showman honors in the annual Jackson county 4-H and FFA fair have been taken by Linda Malloroy and David Wolfolk, both of Antelope.

Miss Malloroy was named champion heifer showman, and Wolfolk received champion steer showman honors.

Other placings in showmanship contests included: Advanced Herefords—1. David Wolfolk. 2. Tessie Ragsdale, Antelope. 3. Martin Heitkamp, Antelope.

Advanced Other Breeds—1. Linda Malloroy. 2. Bob Hayes, Antelope. 3. Lucy Gardner, Antelope.

Intermediate Herefords—1. Judy Bradshaw, Antelope. 2. Leon Small, Valley View. 3. Bill Anhorn, Central Point.

## Joseph P. Ryan Indicted by Jury For Tax Evasion

New York — (U.P.)—Joseph P. Ryan, 71, retired president of the International Longshoremen's Association, was indicted by a federal Grand Jury today on charges of evading more than \$32,000 in income taxes over a four-year period.

The indictment claimed Ryan failed to report \$81,000 income for the years 1949 through 1952.

The Longshore leader was charged also with falsely claiming as dependents in 1949 and 1950 a sister and sister-in-law who had actually died before the claim was made.

Ryan resigned his 26-year presidency of the ILA after the union was kicked out of the AFL in 1953 for corrupt operations. He was promptly elected president emeritus at a salary of \$10,000 a year.

The aging union leader would be subject to a possible sentence of 20 years in prison and fines totaling \$40,000 if convicted on the tax indictment.

The case is the third major one brought against him as a result of financial disclosures made in 1952 and 1953 during public hearings of the New York State Crime Committee into the union's activities.

A grand larceny trial in which Ryan was charged with stealing union funds for his personal use ended last year in a hung jury.

## California Couple, Baby Uninjured in Foothills Mishap

A young Red Bluff, Calif., couple and their 17-month-old daughter escaped injury Wednesday afternoon when their car rolled after being involved in a collision with another vehicle, according to state police.

The accident occurred at Foothills bridge, on Highway 99 near Rogue River, shortly after 4 p.m.

Police said the California car, driven by Kathryn Mae Knight, 17, of Red Bluff, collided with a sedan operated by Merlin H. Jorgensen, 39, of route 1, box 372, Gold Hill. Passengers in the Knight car were the driver's husband, Robert, and their 17-month-old daughter.

Jorgensen also was uninjured, according to investigating officers. They reported severe damage to the Knight car.

The accident was the second at Foothills Creek within a period of about half an hour. Earlier, at about 3:30 p.m., cars driven by Gladys Mae Sutton, 28, of route 1, box 542, Gold Hill, and R. C. Antonissen, Hempstead, N. Y., were involved in a collision. Damage to both cars was reported and there were no injuries.

Three vehicles, one of them parked, were involved in an accident at about 3:20 p.m. on Highway 99 at Talent.

Police said cars driven by Levi D. Hicks, 57, El Monte, Calif., and Charles F. Casey, 65, of route 1, box 448, Talent, collided on the highway. They reported that the Casey vehicle then collided with a parked truck, in the custody of Keith Thorsen, Talent, in the parking lot of Tally Ho restaurant, pushing it into a planter box in front of the restaurant. There were no injuries, and damage to all three vehicles was listed.

## Massachusetts Lists Polio Death Increase

Boston — (U.P.)—A sharp rise in polio deaths in the Massachusetts' epidemic was reported today as the cases continued to increase.

There were eight deaths in the state yesterday for a total this year of 52. Two of the latest victims were in the same family.

The 93 polio cases yesterday boosted the year's total to 1464, some 10 times greater than during the corresponding period last year.

The steady increase in cases apparently meant the state was headed for another record week. During the first three days last week 290 cases were reported compared with 306 so far this week. Last week was the season's record with 411 cases.

## Former West Salem Mayor Dies in Hospital

Salem — (U.P.)—Walter C. Musgrave, West Salem reitor and mayor of West Salem before that community was incorporated with Salem, died yesterday in a Salem hospital where he was being treated for polio. He was 45 years old.

Salem — (U.P.)—Walter C. Musgrave, West Salem reitor and mayor of West Salem before that community was incorporated with Salem, died yesterday in a Salem hospital where he was being treated for polio. He was 45 years old.

## 'Trigger Happy' Reds Accused By UN Command Incident Occurs Over Demilitarized Zone

Munsan, Korea — (U.P.)—The U. N. Command today accused "trigger happy" Communists of wilfully shooting down an unarmed U. S. Air Force plane over the demilitarized zone that separates North and South Korea.

A second American plane, searching for the wreckage and possible survivors from the downed plane, was fired upon well inside U. N. territory, presumably by "friendly" guns.

The T6 training plane, unarmed and with two Americans aboard, was knocked down yesterday by Communist guns near the Korean truce lines. The fate of the Americans, a captain and a lieutenant, was not known.

U. S. Maj. Gen. Harlan C. Parks charged in a letter delivered to the Communist side of the Military Armistice Commission that the incident represented a "barbarous" Communist attack.

The plane was fired upon, the U. N. protest said, when it inadvertently strayed into the demilitarized zone. It never entered Communist air, the U. N. Command said.

The plane was subjected to "continuous, murderous and devastating ground fire" until it finally crashed in Communist North Korean territory.

No parachutes were seen to leave the training plane before the crash.

In Tokyo, the U. S. Far Eastern Air Force said a C-47 transport plane, searching for wreckage and possible survivors "was fired upon this morning approximately 50 miles northeast of Seoul."

The brief Tokyo announcement did not say who shot at the cargo plane. But the location given is approximately 13 miles south of the demarcation line separating North and South Korea, indicated it was fired upon over U. N. controlled territory and presumably by "friendly" forces.

The Air Force said the second incident is being investigated.

The C-47 was struck by one bullet which punctured a wing, but it returned safely to its base.

The U. N. protest said there had been nine instances during the last 10 months of the Communists firing on unarmed aircraft and said the "trigger happy" Red gunners "seem to derive a fiendish delight" in the action.

## Carolina Coast Counts Storm Damage

Raleigh, N.C. — (U.P.)—The storm battered coast of the Carolinas today counted millions of dollars in damage from Hurricane Diane, the second great storm to pass over the area within two weeks.

The howler, the second with hurricane force winds to materialize in the Atlantic this season, dissipated into heavy rains and weak winds of 20 to 35 miles an hour over Virginia Wednesday night after smashing into the North Carolina coast.

Gov. Luther H. Hodges and a hurricane "task force" of top state officials met today to survey damage caused by Diane and its predecessor Connie.

The once-powerful Diane lost its killing punch by the time it hit heavily populated areas along the coast Wednesday. Only one death was attributed directly to Diane.

## Case Continuing In Federal Court

Testimony in a fire damage suit in federal district court here continued today.

The case, Pacific Engine and Machine Works vs. John C. and Ruth V. Rogers of Del Norte Laundry, started late Monday before Federal Judge James Alger Fee.
