

Registration for Crater High Slated September 7-9

Central Point—Crater High school students will register and pay fees Sept. 7 through 9. Principal Arthur Straus has announced. Classwork starts Sept. 12.

Hours of registration will be between 7 and 10 p.m. Sept. 7 and 8, and between 1 and 5 p.m. Sept. 8 and 9, Straus said. Fees will be about the same as last year.

Straus said he expected about 550 students to register for the coming year, an increase of about 50 over last year. Crater High school's capacity is about 600 students.

New Teachers
Four new teachers, including an additional instructor, will start teaching at Crater this year. James Gay has been added as a teacher in an English and social studies department.

Mrs. Nancy Gay has replaced R. L. Marple as freshmen English instructor. Miss Carol Harris has replaced Mrs. Betty Knackstedt in typing and bookkeeping, and Mrs. Carol Hesch will be dean of girls and teach sophomore English, replacing Miss Florence Aasen.

Realtors Plan for Educational Session

Burton W. Dunn, educational supervisor, state department of real estate, met here with representatives of the Medford, Grants Pass, and Ashland realty boards yesterday to discuss plans for a forthcoming realtors educational conference here.

Close to 100 real estate men from this area are expected to attend the educational conference scheduled for the Medford hotel, Sept. 12.

Choose Committee Members
Dunn and seven board members formulated a program and chose committee members at a luncheon in the Medford hotel.

Dunn said the conference is the first in a series to be held around the state. It will feature a full morning and afternoon program with luncheon and banquet speakers.

Robert Semenov, real estate attorney on the faculty of the University of Pittsburgh, will speak on employment and sales controls during the afternoon session.

Ralph Walstrom, Portland broker, is scheduled to talk at the banquet.

Nixon's Near East Trip Aimed at Bolstering Russia's South Flank

Washington — (U.P.) — Vice-President Richard M. Nixon, the administration's unofficial goodwill ambassador, will travel to the Near East and Africa in November to strengthen U. S. relations with the key area on Russia's southern flank.

The White House, in announcing the mission Tuesday, said Nixon is making the trip at the request of President Eisenhower and Secretary of State John Foster Dulles. The 42-year-old Californian previously has made highly successful goodwill missions to the Far East and Caribbean areas.

The announcement said the vice-president will visit the region "to become acquainted with the leaders of the countries in the area . . . to hear their views and to convey the sincere greetings of the people of the United States to the peoples of the area."

Nixon will be accompanied by his wife, Pat, and representatives of the State Department.

The State Department will work out details of the trip with countries involved. It said Nixon's itinerary has not been fixed, but that the timetable will depend upon how much time the vice president can devote to the trip and the political situation in the area Nixon may spend up to a month on the journey.

It was believed certain that he will visit both Egypt and Israel. If so, he will probably make a strong plea to both Israeli and Arab leaders for a final end to their long dispute. The United States has long felt the Arab-Israeli controversy is a major problem barring the region from realizing its full potential.

Portland Houseboat Owners Must Move

Portland — (U.P.) — Houseboat owners at Aviation moorage near Swan Island in the Willamette river must move within 20 days or face contempt of court proceedings.

Circuit Judge James W. Crawford said yesterday the port of Portland could file the contempt citations if the houseboats were not gone in 20 days.

The state Supreme Court had ordered the moorage evacuated last March despite protests from a dozen residents after the Port of Portland declared them a menace to navigation.

Mississippi Elects Governor Opposed To Segregation Law

Jackson, Miss.—(U.P.)—Crusading Atty. Gen. J. P. Coleman swept to victory today in a Democratic runoff primary for governor in which party officials systematically discouraged Negro votes.

Coleman, pledging strict enforcement of Mississippi's segregation and anti-liquor, soundly defeated young attorney Paul B. Johnson Jr. after a campaign of bitter name calling.

Johnson, making his third try for the job, conceded defeat just before midnight when Coleman's lead, steadily fattened since early returns, mounted toward the 50,000 vote mark.

Returns from 1,687 of the state's 1,823 precincts gave Coleman 205,362 votes to Johnson's 154,456.

Both candidates ignored the racial issue on which their stands were identical, and party officials sought to ignore the Negro voters by turning them away from the polls or earmarking the few ballots cast for challenge.

Chairman Tom J. Tubb of the state Democratic Executive Committee announced in advance that the "order went out" to county committees to challenge the Negroes' standing as actual party members. Few tried to vote.

The New York headquarters of the National Association for the Advancement of Colored People said it would seek "prompt and immediate action" by the Justice Department.

But in numerous counties across the state not a Negro showed up to vote, and the few ballots cast would have little effect on the outcome.

Coleman's victory is tantamount to election. The forthcoming general election will be only a formality.

Gov. Hugh White, prevented by law from succeeding himself, called the outcome a "clear indication that the people of Mississippi like clean-cut politics."

Steel Supply Lack Expected To Continue

New York — (U.P.) — Customers yelling for steel "haven't seen anything yet," Iron Age Magazine said today.

The steel industry is headed for new records in order volume, in production and in the delicacy of customer relations, the magazine stated, adding that "some statements that the steel supply will be in better shape by the fourth quarter are wishful thinking."

Water Lines Set For Phoenix High

Phoenix—Water mains from Charlotte Anne water district will be extended to Phoenix High school to provide a new water supply for school opening Sept. 17.

The project is being jointly undertaken by the school district and water district, and the main is being extended on an emergency basis.

S. C. Watkins of the firm of Harvey and Watkins, Medford consulting engineers, said water service will be extended to properties between water district

boundaries and the school as soon as legalities are complete. Watkins said materials are on order for delivery for the first week of September, and bids are being received for excavation and pipe laying by qualified contractors. Specifications may be obtained from Watkins.

FOUR WORKMEN KILLED
Tucuman, Argentina — (U.P.) — Four workers were killed and seven seriously injured in the explosion of a boiler at a sugar refinery here Tuesday.
