# Auto Workers Give Ultimatum to Men Opposing Contracts

Detroit — (U.P.) — The CIO United Auto Workers Saturday followed announcement of membership approval of the two new Chrysler Corp. contracts with an ultimatum to rebellious striking skilled workers dissatisfied with the new pacts.

UAW Vice-President Norman Matthews said the 33 locals covered by the Chrysler agreements ratified them by a margin of 97 percent. The pacts cover 110,000 production and maintenance, engineering, office, parts and cafeteria workers and will be retroactive to Sept. 1.

**Unanimous Approval**  
UAW Secretary-Treasurer Emil Mazy said 30,000 Chrysler auto body division workers approved their new contract almost unanimously.

Chrysler was the last of the "Big Three" auto firms to agree to a guaranteed wage plan. The Chrysler pacts closely paralleled those covering Ford and General Motors workers.

Mazy also issued an ultimatum to 420 skilled workers at two Chrysler plants. He warned the striking workers that "failure to return to work on your part will result in disciplinary action by the union."

**Three Suspended**  
The 420 shut down the Vernor plant and Mack plant Thursday after the union suspended a shop committeeman and two stewards from union posts on grounds they had joined a rival union set up by skilled workers dissatisfied with the new contracts. Chrysler officials said the walkouts may hamper production of 1956 models.

Mazy warned the workers "in the event the Chrysler Corp. takes any disciplinary action against you you will not have the benefit" or "the support" of the union.

He said the walkouts were "entirely the product of anti-union maneuvering by a handful of individuals who seek to make personal gain at the expense of union members."

He was a major in the Army.

# VFW Gives Support To USAF Survival Training Program

Washington — (U.P.) — The Veterans of Foreign Wars Saturday expressed "100 per cent" approval of the Air Force's controversial "survival training" school in Nevada where airmen are taught how to deal with Communist brainwashing techniques.

Timothy J. Murphy, VFW commander in chief, wired the Air Force that "we would be better prepared in the event of another war" if similar training were given combat personnel of other branches of the military service.

"It would indeed be unfortunate if because a few people criticize but one phase of the program the Air Force is compelled to modify its splendid survival training course," Murphy said. He was obviously referring to the "interrogation" phase of the widely-publicized course at Stead Air Force base, during which instructors give voluntary students a sample of Red brainwashing.

The Air Force announced Friday that it will continue the "interrogation phase" of the survival course while it is carrying out a study to learn whether any changes are needed as a result of President Eisenhower's new prisoner of war code. The code calls on prisoners to resist all efforts of captors to get military information from them.

# Six Persons Killed In Texas When Car, Big Truck Collide

Loving, Tex. — (U.P.) — Six persons on their way to a high school football game were killed Friday night when their car collided with a diesel truck loaded with oil field equipment at an intersection east of Loving.

Loving is 50 miles south of the north Texas city of Wichita Falls.

**All in Car Killed**  
The dead persons were all from Breckenridge, Tex., and were on their way to the Breckenridge-Wichita Falls football game at Wichita Falls. Everyone in the car was killed.

"The truck hit the car on the right side and knocked it 60 yards down the side of the road," William C. Blessingame of Loving, who saw the crash, said. "Other bystanders and myself tried to open the side of the car to get the victims out."

**Five Die Instantly**  
Fred Masters, 38, was still alive when he was taken out of the car but he died on the way to a hospital at Graham, Tex. The other five were killed instantly.

They were Mrs. Masters, 38, Leonard Leo Brown, 27; his wife, 25; Royce Cozarth, 14, and Clifton Hodges, 10. Royce was the son of Mr. and Mrs. Verence Cozarth and Clifton was the son of Mr. and Mrs. Otis Hodges.

The driver of the truck was R. D. Mangrum Jr., 35, of Irving, Tex. He received injuries described by the Graham hospital as "not serious."

# Warm Springs Company High Bidder on Timber

Madras — (U.P.) — The Warm Springs Lumber company bid \$3,009,774 for 63,000,000 feet of timber offered for sale Friday by the Warm Springs Indians.

Five companies competed with the Madras firm in six hours of tense bidding before Warm Springs offered \$51.30 per 1000 board feet of ponderosa, sugar and white pine and \$39 per 1000 board feet of Douglas fir and other species.

Under terms of the sale, the lumber must be logged by the end of June, 1960. The bid is subject to review by Interior Secretary Douglas McKay.

# Fiery Governor of Pennsylvania Not Among Candidates

Los Angeles — (U.P.) — Pennsylvania's Democratic Gov. George M. Leader, whose fiery speeches in California opened a hornet's nest of inter-party charges and counter-charges, said Friday he has no personal ambition for the presidency but could make "a quick" change of mind.

Leader declined to name any choice for the Democratic nomination at a press conference. He said it was "too early" to endorse any Democratic party presidential hopefuls at this time.

**Might Change Mind**  
But asked if he would accept candidacy for president or vice-president if either were offered him, Leader grinned and conceded it would be possible for him to change his mind.

The Quaker State Governor charged Thursday night in a speech in Los Angeles that President Eisenhower is "a political freak" who has enjoyed a tenderness of approach that is unique in America's political history.

The speech was seen as the beginning of a Democratic get-tough policy toward the President and possibly as Leader's bid for a presidential nomination.

Leader spoke at the Los Angeles dinner and at a San Francisco dinner Wednesday night in place of former President Truman who had to cancel his scheduled appearances at the fund-raising affairs.

**Brought GOP Replies**  
His San Francisco speech referred to "underworld" influences in the Republican Party and brought impassioned replies from Republican leaders and from White House spokesmen.

Assistant White House Press Secretary Murray Snyder said that the underworld label might be more appropriate if pinned on Leader's party.

Leader replied that he was not referring to criminal elements but to "the isolationist wing and the prevent-atomic-war now people in the Republican Party."

In his Los Angeles speech, Leader said "Dwight Eisenhower is no constitutional monarch, a symbol of state removed from party convention. He is a Republican partisan president—and he should be so recognized and treated."
