How long have the men of medicine been trying to conquer hay fever? What follows is a letter written by Sidney Smith to his son-in-law 120 years ago: "I am suffering from my old complaint, the hay fever (as it is called). My fear is perishing by deliquescence—I melt away in nasal and lachrymal profusion. My remedies are warm pediluvium, cathartics, topical application of a watery solution of opium to eyes, ears and interior of the nostrils. The membrane is so irritable that light, dust, soot, irritation, an absurd remark, the sight of a dissenter—anything sets me sneezing. Turn your mind to this little curse. If consumption is too powerful for physicians at least they should not suffer themselves to be outwitted by such little upstart disorders as the hay fever."

Among the things every young business man, writer, editor and film producer should know and keep in mind is that there are over 95,000,000 church members in the United States . . . Jessica Daube. One of the world's outstanding authorities on the subject of feminine hat style. Jessica is wearing a small hat but not flat on her head. It is planted, or should I say tilted? Anyway, this seems to indicate that the criticism of our Horses and Women experts as to females wearing small hats flat on the head indicates a lack of style sense. To say nothing about it making even a beautiful, intelligent woman appear as if she is suffering from a slight case of arrested development.

Most of the casino type gambling takes place at the Caribe-Hilton Hotel. Twenty per cent of the profits of that hostelry are said to come from the casino. Incidentally, the Puerto Rican Government, which owns the hotel, gets two-thirds of the profits, the Hilton organization, as the operator, gets one-third.
