

Switchmen Due For Wage Boost

Chicago—(U.P.)—About 10,000 switchmen on 14 western railroads will receive a general wage increase of 10½ cents an hour under a new company-union agreement.

The boost for members of the AFL Switchmen Union of North America agreed upon Monday, is the same as that won by 175,000 members of the Brotherhood of Railroad Trainmen on all of the nation's railroads last week.

The increase is retroactive to Oct. 1. In addition, the switchmen won an increase in their daily pay rate effective Dec. 1, when they all go on a five-day week.

Railroads included in the agreement are the Chicago Great Western; Chicago, Rock Island and Pacific; Denver and Rio Grande Western; Great Northern; Minneapolis and St. Louis; Southern Pacific; Western Pacific.

Also, Davenport, Rock Island and North Western; Kansas City Terminal; Los Angeles Junction; Railway Transfer Co. of Minneapolis; Northern Pacific Terminal Co. of Oregon; St. Paul Union Depot Co.; and Sioux City Terminal Co.

Old Love Letters Often Lead To Marital Unrest

It can be fun to read over old love letters, but it can also lead to trouble.

(Q) "Whenever I get blue and depressed, I read over the letters my husband wrote me when we were going to get together, before and after our engagement. He went to work in another state and I saw him only occasionally during our engagement, but I heard from him every day. He wrote real love letters, and they made me so happy I could hardly wait until he was established in business so we could be married."

"I kept all his letters and read them over and over again. We have been married 12 years and have two children. My husband is a changed man—not the ardent lover of our courtship days. I miss the love I used to get from him, although he is a faithful husband, a good father and a capable provider. I find that the letters cheer me up for a time, but then I get depressed again thinking of how things used to be. My mother tells me I shouldn't relive the past, since things never remain the same. Do you think she is right?" Mrs. P.C.

(A) I think your mother is dead right about this matter. To avoid any temptation to reread the old love letters, why not have a bonfire and burn all of them?

You may hate to do this because it will suggest you are getting rid of a happy romantic part of your past life. However, old love letters can be a source of trouble. The sooner they are disposed of, the better.

Your husband has changed with time, just as you have. But that does not mean he no longer loves you. His love has changed, but it is still there, or he would not be a good husband and father.

You cannot expect a man who is approaching middle life and has the responsibility of providing for a family to be the same ardent lover as a college boy. His love today is a mature one, not to be compared with the youthful passion he expressed in his letters.

Lost Wallet Rides 20 Miles on Car Fender

Brookville, Pa.—(U.P.)—Mrs. G. Brent Doverspike of New Bethlehem stopped here for some ice cream one night. Forgetting she had laid her wallet on the fender of her automobile while waiting for change, she climbed into the car and drove home, a distance of some 20 miles.

Unable to locate the wallet, Mrs. Doverspike telephoned the Brookville American to place a lost ad in the weekly newspaper. Meanwhile, her son took the car for another trip of 30 miles. The next morning, Mrs. Doverspike said, a passerby spotted the wallet—still on the fender.
