Simple-To-Focus Auto Headlight Developed by GM

Detroit — (U.P.) — A new auto headlight that can be focused properly with a few simple steps was introduced today by the Guide Lamp Division of General Motors, which said the light will be used on all 1956 General Motors cars.

C. A. Michel, general manager of the Guide Lamp Division, said, "We believe it is the greatest contribution to safe night driving since the introduction of the sealed beam itself in 1940."

He said the new lamps can be focused properly without the use of expensive equipment, and should correct the "unsafe driving condition" caused by "more than half the cars on the road" which have lights "aimed too high, too low, or too much to one side."

Adjustment of headlamps has been done by throwing the lights on a wall chart or through use of headlight aimers. Limited space has been a handicap to using wall charts and headlight aimers have been too expensive for most garages to buy.

The new headlamps have three glass knobs, ground in precise dimensions at exact spots on the outside of the sealed beam light. When the knobs are correctly lined up through a simple and inexpensive tool the lights automatically will be in correct focus.

Portland Traction Franchise Case Set

Portland—(U.P.)—Next Wednesday has been set by the Portland city council as hearing date on a request that Portland Traction Co. be denied a 10-year renewal of its franchise.

The request came from City Commissioner N. A. Boody.

Boody has said "local interests" were ready to take over the city's mass transportation system but he has not identified the interests. The present PTC franchise, which it has enjoyed for 20 years, will expire next January 31.

Jacksonville Ends Burning Restrictions

Jacksonville — Restrictions have been taken off burning of rubbish in Jacksonville, city officials have announced. Burning will be allowed without permits for the first time in about four months.

City officials expressed their thanks to residents for cooperation during the restrictive period, but urged them to be careful in burning rubbish.

A new oscillator has been installed in the fire department's siren which will blow continuously for 2½ minutes unless the master switch is turned off. The oscilator varies the pitch of the siren.

Christie School Receives Funds From UMC Drive

(Editor's Note: This is another in a series of brief articles describing the agencies which benefit from the United Medford Crusade fund drive, now under way. Material is supplied by the agencies themselves.)

Through help provided by donations to the United Medford Crusade one small girl no longer hurls herself through plate glass windows in an expression of troubled behaviour. At Christie school she has found happiness and proper guidance and is once again a normal little girl.

Christie school is operated by the Sisters of the Holy Names of Jesus and Mary and is located on a beautiful tract of land along the Willamette river, 10 miles south of Portland.

One of the uses of the group setting is to keep families of children together. During 1955, Christie had one group of five sisters and four groups of four sisters representing 21 children. There were also seven sets of three sisters. Almost always there are over 50 per cent of the children who have one or more sisters with them at the school.

Hells Canyon Ore Development Planned

Weiser, Ida. — (U.P.) — A $5,000,000 Idaho corporation has announced plans for developing low-grade smelter ores in the Hells Canyon reach of the Snake river.

T. L. Nye, Boise mining executive and lumberman who heads the Idaho Mining and Smelting Corporation, said he plans to build a smelter on a site optioned by the company near here if development work at several locations along the Snake shows promise.

Size of the smelter would be determined by the quantity and quality of ores mined. Copper would be the principal metal, but the region also contains cinnabar, gold, silver and tungsten.

Vancouver Man Held For Multnomah Jury

Portland—(U.P.)—Quinton Robert Gault, 53, Vancouver, Wash., waived a preliminary hearing in Municipal Court here yesterday and was ordered held for the Multnomah county grand jury on a murder charge.

Gault was accused of slaying Mary Mark, 46, who died Oct. 5 of a five-inch knife wound in her chest. The murder weapon was not found.

Gault has repeatedly denied the slaying, although he has admitted arguing with the woman in her apartment the night she died. Witnesses said he left the apartment shortly before the body was found. He was arrested near The Dalles, Ore.

Copco Contract Decision Deferred

Klamath Falls — (U.P.) — The Oregon and California Klamath river commissions deferred a decision on whether to drop an objection to a proposed contract between the California Oregon Power company and the Bureau of Reclamation until it meets with Copco general manager John C. Boyle today.

Boyle met with the commissions to discuss a letter in which the power company has offered, on the conditions that pending opposition to the contract is withdrawn, to agree that no Klamath river water will be used by Copco when it is needed for domestic, municipal or irrigation purposes in the upper Klamath basin.

The company, according to the letter, will so agree no matter whether the water rights are state or federal. A subsequent offer has been drafted by commission attorneys spelling out in more detail the license application for which the river commission would like Copco to apply.

Un-American Group Schedules Comedian

Hollywood — (U.P.) — A House Un-American Activities subcommittee holds a secret meeting today at 2 p.m. PST at which comedian Zero Mostel is scheduled to appear.

Details of the subcommittee meeting were not disclosed. However, it had announced earlier it planned to continue its probe of Communist activities in the entertainment field.

Other witnesses were not identified by the committee members, Rep. Clyde Doyle (D-Calif.) and Rep. Donald L. Jackson (R-Calif.). Mostel originally had been scheduled to testify before the committee at its recent open hearings in New York. He was appearing with the road show company of "Lunatics and Lovers" at the time, however, and his testimony before the committee was delayed until now.

Arthur Godfrey says:
With just your name and address you can win

3rd LUCKY LEVER $100,000 SWEEPSTAKES!

No skill required! Nothing to guess! Nothing to write but your name and address!
Everybody receives valuable coupons plus a chance to win $25,000 in cash
or any one of more than 3031 other prizes!

$25,000 CASH First Prize
$5,000 CASH Second Prize

5 1956 FORDS

Customline Fordor Sedans
Graceful Thunderbird styling, 176-h.p. Y-8. Added protection of Lifeguard design. Power steering, Ford-omatic drive, radio, heater.

Your Sweepstakes Entry Blank and coupons are in the mail!

During the next two weeks your mailman will bring you an envelope with *your* free Entry Blank in it—*and* 3 money-saving coupons.

Sit right down and write your name and address in on the Entry Blank. Detach the stub and send the Entry Blank back to Lever Brothers.

And tuck those coupons in your pocketbook, so you'll have them next time you shop. They can save you 26¢ on Lux Liquid or Lux Flakes . . . new Lux sealed in Gold Foil . . . and Rinso Blue.

Remember—there's more than one way to win in *this* Sweepstakes. You can win one of the big prizes. And of course everybody wins with those coupons!

25 CBS COLOR TV SETS

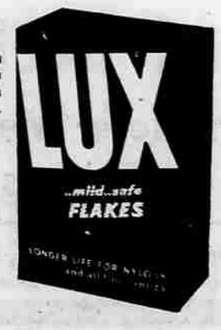
CBS-Columbia Full Fidelity Color Sets
Color picture comparable to 21-inch black and white set. Exclusive Color Guard Circuit. Cabinet by Paul McCobb.

3,000 Sortilège Sets

Fabulous "Stork Club" perfume and cologne
that host Sherman Billingsley gives to his guests at his famous club.

LUX LIQUID DETERGENT
for fast, easy dishwashing. It's the next best thing to a dishwashing machine.

LUX FLAKES
Gentle Lux Flakes care can double the wear you get from every pair of nylons.



NEW LUX sealed in Gold Foil
You can *see* and *smell* the difference in new Lux—it's dazzling white with a wonderful new fragrance brought to you in the sealed protection of Reynolds gold foil.

RINSO BLUE
washes clothes whiter than new. In fact, new Rinso Blue guarantees whiter washes from *any* machine!

Plus: S & H Green Stamps All Depts.
