

A GREAT EIGHT!

Yes, It Has Been a Great Eight Years for Station KYJC Thanks to the splendid support of our many fine listeners and sponsors . . . In October of 1947 KYJC began operation as a Music, News and Public Service Station . . . Then in response to your calls, letters and cards asking for a national network, KYJC became an affiliate of the American Broadcasting Company in 1949 . . . A Few years later when your comments and suggestions indicated you were missing the top CBS programs in this area, KYJC began negotiations and in 1952 added the programs of the Columbia Broadcasting System. Thus bringing to the Rogue Valley radio audience the best of these two great networks.
