### Be Honest, Is Advice

#### To Those Hunting Work

Washington—(U.P.)—Be honest when you job hunt. And if there are wedding bells in the immediate future, tell the prospective employer so.

This advice to girls comes from Miss Mary Huck, a home service director of Columbus, Ohio. Part of her work is interviewing job-seekers.

Miss Huck says the employer deserves a fair and honest evaluation of your training, personality traits, ambitions and abilities.

"By all means give a frank statement of your marital or family plans."

Writing in the current issue of the Journal of Home Economics, Miss Huck complained of the job hunters who "neglected to tell us they want to work only long enough to earn money for a trousseau . . ."

Unless otherwise agreed, she added, a girl should plan to stay on the job at least two years.

"This is no more than fair to your employer," she said, "and is the time you need to make a definite contribution to the job."

#### Extension Meeting Set for Oct. 21

The first extension program planning meeting for the county will be held Oct. 21, at 10:30 a.m., in Bigham hall at the Jackson County fairgrounds.

Extension projects for the following year will be planned at the meeting. Which ones of the available projects will be undertaken will be determined by the interest shown at the meeting, according to Joanne Weatherford, acting county home extension agent.

Possible projects range from basket weaving and advanced lampshade making to identification and care of new products.

#### JELLY MAKING HEAT VARY

New York—(U.P.)—Cooking temperatures for jelly may vary with the altitude. Jelly is done when two thick, heavy drops run together off a clean metal spoon. You can use a candy-jelly thermometer to determine the correct finished temperature for your altitude. Just add 7 degrees Fahrenheit to the temperature at which water boils in your community.

William Henry Harrison, the ninth U.S. president, was 68 when inaugurated which made him the oldest chief executive.

The jumper's back on the campus, more popular than ever this fall. This pert coed wears a cotton corduroy jumper designed along pinfore lines by Laura Lee of St. Louis. The corduroy jumper, with adjustable bib front, is teamed with a cotton blouse trimmed with matching corduroy cuffs and collar. The National Cotton Council reports that corduroy is popular in men's, children's, and women's fashions this year.

### Good News For Septic Tank Owners

Septic tanks are lifesavers for those who live away from city sewer systems. But septic tanks can, and do, stop-up and overflow! First, because the tank is not cleaned at proper intervals; secondly, toilet tissue that does not readily disintegrate may clog the drains and force them to back up!

This may be avoided by using MD Toilet Tissue—because MD is scientifically processed to absorb water quickly. Drains don't clog or back up so readily!

Good practice: Consult your County Health Department, your plumber, or a septic tank service company, for advice on cleaning your tank. Use MD Toilet Tissue!
