

Public Given Notice Meeting At Geneva Has 50-50 Chance

By LYLE C. WILSON
United Press Correspondent
Washington—(U.P.)—The American public is on notice from the responsible men here and abroad that there is no more than a 50-50 chance, if that, for success at the foreign ministers conference which began today in Geneva.

The "acid test" description of the conference is an old phrase and not something new and uttered only after the July Big Four Summit Conference could be carefully reviewed and considered.

President Eisenhower used the phrase last July when he said the "acid test" of July's sweetness and light would come only when the foreign ministers met. They now are meeting, Mr. Eisenhower repeated the phrase Wednesday.

The Big Four at Geneva merely agreed that the foreign ministers should meet to seek solutions to problems which the Big Four cited for their attention. They are the linked problems of European security and German unification and cultural exchanges among the nations.

Other Warnings Issued
As October began, Harold MacMillan of Great Britain warned the United Nations General Assembly against undue optimism on the outcome of the foreign ministers meeting.

Speakers Listed For GOP Conference

Portland — (U.P.) — Speakers at the Western Republican Conference here next week will include Secretary of Labor James Mitchell, Interior Secretary Douglas McKay, assistant to the President Howard Pyle, and GOP National Chairman Leonard Hall.

This was announced today by Jess Gard, Oregon Republican national committeeman who is chairman of the conference arrangements committee.

Vice-President Richard Nixon will not be able to attend. Others scheduled to speak include Gov. Paul Patterson, who has been under pressure to say whether he will run for the Senate next year; California Gov. Goodwin J. Knight, Idaho Gov. Robert Smylie, and Ivy Baker Priest, treasurer of the United States.

Benson Criticized By Waiting Caller

Washington — (U.P.) — Agriculture Secretary Ezra T. Benson, who created a furor earlier this year by keeping Burmese Premier U Nu waiting for an appointment, got another reprimand Wednesday from an impatient visitor.

Edwina Guest, a six year old girl who called to give Benson a citation for his department's community chest contributions, told the secretary: "You must not make me wait so long next time."

said nothing had occurred to produce concrete evidence of any change in Russian aims to "impose the godless ideology of Communism on the world by aggression, subversion, fraud, deceit or any other means available."

The most chilling report on the present attitude of the men in the Kremlin came from West German Chancellor Konrad Adenauer's party which visited Moscow by invitation after the Big Four met at the Summit. "Their attitude is unchanged," was the word brought back by the Germans.

Smog Again Rolls Into New Orleans

New Orleans — (U.P.) — Stifling smog rolled into parts of New Orleans again last night but no further deaths were reported from the acrid atmospheric conditions with asthma patients and slowed traffic to a crawl.

The smog contributed to the deaths of two asthmatic patients yesterday. Charity Hospital doctors said today's rush did not reach the crushing proportions of the previous night, but that "at least a third" of that total showed up again for treatment.

Police broadcast repeated warnings through the night for motorists on the Chef Menteur highway, the main link into and out of the city to the east, to wait until the smog lifted before traveling through the area. The smog was described there as being heavy and blinding.

Ash Tray Tossed Through Wrong Window

Norwalk, Calif. — (U.P.) — William J. Pivar, 39, a brewer, realized today he was in the wrong place when he "got the urge" to toss a heavy glass ash tray through a window Wednesday night. The window he chose was in the sheriff's substation.
