

Chicago Police Sort Meager Clues In Woman's Death

Chicago—(U.P.)—Police sorted through a maze of skimpy clues today for a lead in the seemingly motiveless murder of a middle-aged mother of six children.

Mrs. Edith Jamieson, 48, was found strangled and trussed up "like a steer" yesterday in a dirty South Side alleyway just a short distance from her home. Preliminary investigation virtually eliminated sex or robbery as motives for the crime.

Police said the woman, the grandmother of five, had not been sexually molested and that her money purse was in a coat pocket.

Unusual Rope
An unusual type of wire and hemp rope used to bind the body appeared to be the best clues uncovered so far.

The copper-coated, coil type wire was used to tie the victim's hands and wrists. Heavy hemp rope was wound around her neck and around her waist, with wire extending downward binding her ankles. A strip of cloth was knotted so tightly around the throat that it was deeply imbedded in the flesh.

There was speculation that someone with a knowledge of steel-tying committed the crime, because of the method of finding the victim. Chicago's sprawling stockyards are located several miles away.

Dr. Jerry Kearns, coroner's pathologist, said Mrs. Jamieson had been strangled before she was tied up. She also had been struck twice on the right side of the head, he said.

Mrs. Jamieson's family gathered in anguished silence in the kitchen of her home . . . gazing at the turkey she had prepared for Thanksgiving.

"Mother was so happy yesterday, fixing the turkey stuffing," said 19-year-old Thomas Jamieson, his voice trailing off into an anguished sob.

Ike-Eden Talks Not Wanted Too Soon

Washington—(U.P.)—The United States welcomes the idea of a conference between President Eisenhower and British Prime Minister Sir Anthony Eden, but not too soon.

Eden's eagerness for a talk with the President became known yesterday when London reports said he would welcome an opportunity to visit here.

Authorities said the United States would be happy to receive the British leader for strategy talks. But they pointed out that Mr. Eisenhower will not be able to engage in extensive conferences on world problems for some time because of his illness.

Some London reports said discussions on a possible trip already are underway.

However, both the White House and State Department denied knowledge of any present plans to work out a conference.

INNOCENT MISTAKE

Memphis, Tenn.—(U.P.)—Charles W. Schaper of Cleveland, accused of looting automobiles on the police station parking lot, claimed today it was partly an innocent mistake. Schaper said he did not know he was on police property.

Private Utility Permit To Build Dams in Hells Canyon Outrageous, Harriman Tells Lewiston News Conference

Lewiston, Ida.—(U.P.)—Gov. Averell Harriman of New York believes it was "outrageous" of the Federal Power Commission to build dams in Hells Canyon. Harriman told a press conference yesterday that the FPC gave permission to Idaho Power

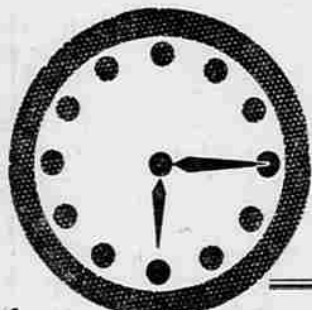

company to go ahead with the dams two days after Congress adjourned. "They did this out of fear Congress would reverse their position," he said.

Dead line for Sunday Classified is at noon Saturday.

Harriman also charged that Idaho's two Republican senators, Herman Welker and Henry Dworshak, with "selling Idaho short" in the controversy over public vs. private power. Harriman claimed he did not know whether the senators' sup-

port of Idaho Power company's application to build dams in Hells Canyon was "a giveaway or payment for service rendered."

The FPC granted Idaho Power a license last summer to build two of the three dams it plans in Hells Canyon. Public proponents had favored a single, high, federally financed plan.
