The Medical Roundup

by Walter Alvarez, Emeritus Consultant in Medicine, Mayo Clinic. Emeritus Professor of Medicine, Mayo Foundation.

TESTS FOR SYPHILIS MAY HAVE TO BE DISREGARDED. At the recent meeting of the American Society for Clinical Pathologists, Dr. John J. Andujar...

never had any symptoms to suggest that she had received syphilis from a gay father. The chances were that it was a "false positive."

It should be a great comfort to many persons with a positive Wassermann or Kahn or Kline test to know that, after they have been without symptoms for 30 years, and after they have had excellent treatment...

Years To Enact Tests. Dr. Andujar made the important point that it took many years for legislators to enact laws requiring compulsory tests for syphilis...

There are a few innocent persons who, on routine testing, are found to have what looks like a positive test for syphilis but which is due to peculiarities in the blood that can perhaps be identified by an expert...

I remember a minister's wife who had what looked like a positive Wassermann. She was a quiet, mousy little woman who said she had never misbehaved in any way...

up now, and quit having Wassermann tests made. Two Ways of Handling People. A fine woman tells me that she and her husband were once terribly upset because a physician told the husband bluntly that he had an incurable and soon-to-be-fatal disease...

returned, and he became full of plans for the future. It was so wonderful when he started to talk to me again. As the woman said, "How strange: both doctors were correct in their diagnosis, and their treatment was the same; both were so busy that they were almost killing themselves with overwork; and yet, with all that, one of them took time to sit down and give us back hope and life."
