**Non-Farm Work Drops in November**

Salem—(U.P.)—The number of jobs reported by non-farm employers dropped 13,700 last month but remained 9800 higher than in November, 1954, according to the State Unemployment Compensation Commission.

Figures showed the total of 472,100 was about 25,000 under the all-time seasonal peak of last September and was nearly 35,000 more than last winter's low in January and February.

Insured unemployment, as measured by weekly claims at local offices, has remained almost constant this month but is expected to increase considerably after the holidays.

Layoffs in lumber, construction and food processing were mainly responsible for the decline. Sawmills and logging outfits dropped 660 to 61,900 jobs, lowest since April and 2900 under a year ago. Construction laid off 3800 down to 23,400, slightly above 1954 comparisons.

Food processing also held up with 17,700.

**Unmarried Status Worries Japan Prince**

Tokyo—(U.P.)—Crown Prince Akihito, heir to the Japanese throne, celebrated his 22nd birthday today and palace sources said he is becoming increasingly concerned over his unmarried status.

But the final decision in selecting a wife will not be his own.

The Imperial Household Board is searching for a bride for the young prince who may some day succeed his father as emperor of Japan. Palace attendants report that Akihito has been concerned over their failure to find a suitable candidate and has discussed the problem on a number of occasions with the Imperial Household Board.
