Report Increase In Consumption of Milk in County

Milk consumption in Jackson county during 1955 was 2.3 percent higher than the previous year, according to a report by John Kessler, advertising chairman of the Jackson County Milk Producers' league.

The report was one of several annual reports by the league at the annual meeting recently.

Kessler "said increased consumption was 'encouraging' because in the three previous years there was a decrease in consumption here. Despite the increase, he said, dairy profits were cut last year because of increased feed and production costs."

Total receipts for grade A milk producers amounted to \$925,000 last year, an increase over 1954, according to league manager Dick Westerberg.

Dairy Festival Plans
Mrs. Lewis Clark, newly elected president of the league auxiliary, reported that plans are under way for the second Dairy Festival in June. She said the group hopes the festival will become an annual event.

Also on the program were Jennings Pierce, the league's public relations counsel, Brad Curtis, folk singer, and Lea Ross, local entertainer.
