

# Dulles' 'Brink of War' Statement Not New, Republicans Maintain in Defense

## Harriman Not To Allow Name Use Without Consent

San Francisco — (U.P.) — Gov. Averell Harriman announced last night he will not allow his name to be entered in any presidential primaries without his consent.

It was the first statement by the New York State governor on whether he would test his voter popularity with avowed presidential Democratic candidates Adlai E. Stevenson and Sen. Estes Kefauver.

Not 'Active Candidate' Harriman, who admitted he is the "favorite son" of New York State's 98-vote key delegation, again said he was not an "active candidate" for the Democratic nomination.

He predicted that the Democrats will recapture the White House this November against any Republican candidates, including President Eisenhower and Vice-President Richard Nixon and Chief Justice Earl Warren. The governor's announced re-

fusal to enter any primaries was interpreted by some observers as an apparent campaign strategy to stay on the sidelines until Democratic party leaders and voters test the popularity of Stevenson and Kefauver.

One Previous Entry Harriman has entered only one primary previously, that in

## U.S. Said Seeking Armaments Race End

Washington — (U.P.) — An administration official said last night the United States will make every effort to reach a "sound agreement" with Russia for ending the armaments race.

Harold E. Stassen, presidential disarmament adviser, said a "secure method, assured by inspection, must be found to end the competitive buildup of greater and greater armaments."

In an address to the Women's Forum on National Security,

1952 when in the District of Columbia he defeated presidential aspirant Kefauver of Tennessee handily, 14,075 votes to 3,377.

The governor's statement was made at a news conference at the Fairmont hotel in San Francisco last night. Harriman arrived in California yesterday for a two-day speaking tour in San Francisco and Los Angeles.

## Stassen said the United States

"will make a renewed and persistent effort" this year "to reach ... a sound agreement for the future limitation of armament in the interests of a continuing peace."

PARKING DIFFICULTY Omaha — (U.P.) — Some 70 workers walked off their jobs at the Swift and Co. packing plant here when two employees were fired for fighting over a parking place.

## Truman Did It, Knowland Claims In Backing Remark

Washington — (U.P.) — Republicans today countered Democratic criticism of Secretary of State John Foster Dulles' "brink of war" policy with the argument: "Truman did it, too."

Senate Republican Leader William F. Knowland said Dulles' policy was nothing new. He said the Truman administration followed a policy taking a "calculated risk" on war in at least two instances — fighting the Berlin blockade and warning Yugoslavia to stay out of northern Italy.

Dulles Defended President Eisenhower entered the international debate for the first time with a defense of Dulles at his news conference today.

The Dulles policy statement — which first appeared in a magazine interview last week — was rapidly becoming a major election-year issue. Dulles said the United States has avoided war three times since 1953 by daring to go to its brink — during crises over the Korean armistice, Formosa and Indochina.

Defended by Knowland Knowland, occasionally critical of administration foreign policy, strongly defended Dulles' Wednesday in a Senate speech.

He said he hoped "we shall do nothing to undermine the courageous policies of strength which deter war by making known to a potential aggressor in advance that he will lose more than he will gain."

Sen. George H. Bender (R-Ohio), charged that events leading the nation to the "brink of war" in Korea, Indochina and Formosa were "direct results of the Truman administration."

## Ex-Convict Held In Kidnap-Assault Of Arizona Girl

Mesa, Ariz. — (U.P.) — A 33-year-old ex-convict who said he blacked out after picking up a child in his stolen auto was held today for investigation in the kidnap, assault of a seven-year-old girl.

Wayne V. Taylor was arrested by sheriff's deputies yesterday as he hid in brush about a mile from where blonde Carla Hixon was found unconscious in a desert wash. The girl disappeared Tuesday afternoon. She had been beaten brutally about the head and apparently molested sexually.

Drinking Blamed Taylor, in a statement to Maricopa County Attorney William Mahoney, admitted stealing a car and then picking up a little girl. He said he had been drinking and did not remember what happened after the girl got into the car.

When he awakened yesterday, Taylor said the girl was gone. The car was abandoned on a desert road near the spot where the girl was found lying in the wash underneath some mesquite bushes.

After she regained consciousness, Carla told deputies a man forced her into his car when she refused his offer of a ride to her home.

Eyes Blackened The girl's eyes were blackened and Dr. W. B. Patterson said she apparently suffered a fractured skull when beaten by a blunt object. It was "more than likely" the girl was in the wash throughout the night, Patterson said.

The child disappeared shortly after she got off a school bus about a quarter-mile from her home in a rural area six miles northeast of Mesa.

## Hillsboro Airport Scanned by Service Team

Portland — (U.P.) — The joint Air Force-Navy team investigating sites for construction of a new airport in the Portland area spent most of yesterday inspecting the Hillsboro airport.

The Hillsboro facilities were the first on the list of sites to be explored by the team headed by Col. W. H. Banks from Air Force headquarters in Washington. The group plans to inspect other possible sites in the area for the next two weeks.

## Juneau Storage Building Damaged by Roaring Fire

Juneau, Alaska — (U.P.) — A spectacular fire fed by oil-soaked fishing gear roared through the Juneau cold storage building here Tuesday causing about \$1,500,000 damage.

There were no injuries reported but the fire destroyed a fish loft which housed a storage plant where most local fishermen stored their equipment.
