

West Coast Lands Earn \$36,629,985

Portland—U.P.—Public lands in the three West Coast states earned \$36,629,985 for the federal treasury in fiscal 1955, according to the Bureau of Land Management here.

The revenue came from timber sales, grazing fees and mineral leases on 34,000,000 acres of public lands in Oregon, Washington, and California.

The BLM said timber sales of 702,334,000 board feet accounted for \$25,000,000 of the total income from the land.

Coos Bay wagon road and O and C revested lands in Oregon produced 669,334,000 board feet.

The three Far West states contributed more than 15 per cent of total revenues of the Bureau last year and more than 96 per cent of all revenues from timber sales.

Physicians To Discuss Heart Examinations

Three Medford physicians will discuss and demonstrate heart examinations on television Sunday at 3:55 p.m. on the regular Jackson County Public Health association program. The Oregon Heart association, Inc., is cooperating with the show.

Appearing will be Dr. Ralph E. Hibbs, Dr. Oscar Heyerman and Dr. Ray Casterline, physicians, and Robert Dickey, who will take the role of a patient.

The program is in observance of Oregon Heart week, according to Mrs. Henry Padgham, president of the Jackson County Public Health association.

In recognition of Heart week, Mrs. Padgham reported that several pamphlets on heart disease and weight reduction are available for the public at the Jackson county public health department in the courthouse.

An extensive campaign had been carried out before in the nearby communities, with the result that 300 signers for blood were secured. Two hundred and thirteen donors showed up at the Bloodmobile and 179 pints of blood being obtained. The other donors were rejected.

Mrs. Eva Segessenman, overall chairman for the Bloodmobile, thanked the doctors, nurses, nurses aides, home nursing staff as well as those who helped with the registrations, typing and traffic for their cooperation.
