The Medical Roundup

by Walter Alvarez

Emeritus Consultant in Medicine, Mayo Clinic
Emeritus Professor of Medicine, Mayo Foundation

Black Moles Are Dangerous

A while ago, at a meeting of the American Medical association, Doctors George T. Pack and Jeff Davis, of the Memorial Center for Cancer, in New York, commented on the great need for quickly removing black moles or warty growths or birthmarks, especially when they are on the external genitalia or around the mouth or nose or rectrum. Those that appears in a nail-bed, or on a leg, a palm or a sole are not quite so dangerous. The great danger is that such moles can suddenly turn into black cancer, a highly malignant type, which can then shoot out all over the body, often bringing quick death.

Walter Alvarez

If I had ever had on my body such a black mole I would long ago have had it removed by a surgeon who would have cut fairly widely around and below it so as to be sure he had got all of it. I would not have waited for the things to start growing. I would have been particularly desirous of having the mole or wart removed if it had been on the back of my neck or on my waist-line where it would have been often rubbed and irritated by my collar or my belt.

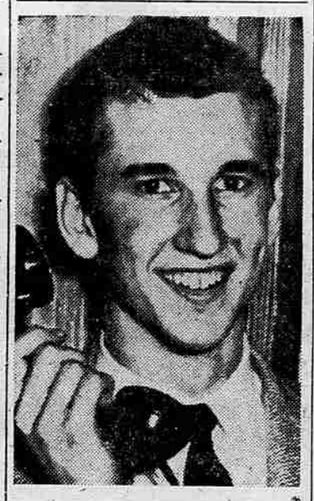
When one has a black birthmark or mole, danger signals are, (1) an increase in size, color or contour of the nodule; (2) inflammatory changes in or around it, or (3) ulceration, bleeding, crusting, pain, discomfort or itching. The person who notes such changes in a black mole should go right off to a good surgeon to have the thing well removed. The worst thing to do is to let some inexpert person tinker at it with salves or pastes. Such treatment is usually followed by the death of the person.

Yaws Easily Curable

I just saw in Science News Letter that in Africa some 25,000,000 natives are suffering from a horrible and often terribly disfiguring disease, called yaws. It is due to a spirochete, a very tiny spiral organism almost indistinguishable from that which produces syphilis. What is particularly sad is the fact that for some 17-cents' worth of penicillin, a patient — perhaps a child, can be cured of his disease. Already, with the help of American philanthropy, hundreds of thousands of natives in the Caribbean have been cured with one injection.

Dr. Alvarez regrets he hasn't time to read or answer requests for information.

(Released by The Register and Tribune Syndicate, 1956)



TALKED TO KREMLIN—After 13½-hour wait and a toll of $15, Charles Mee, 17-year-old Barrington, Ill., high school student, shows how he completed trans-Atlantic telephone call to the Kremlin in Moscow. He is convinced the man he talked with was Soviet Premier Nickolai Bulganin. Mee and friends called Moscow to get first hand information for term paper on Russia's treaty letters. They got an "I don't know" answer.

About one-third of all timber removed from the forests in the United States has been used by man. The other two-thirds has been destroyed by fires, tree disease and tree insects.

May Tax Pinball Machines in CP

Central Point — The possibility of a pinball machine tax was discussed by the city council here at a recent meeting.

A survey of pinball machines in town was ordered and more information was to be presented at the next meeting.

Councilmen voted to approve a request for three water connections, submitted for a proposed housing development on Merriman rd. by Harold Hulse, and to send the request to the Medford Water commission since the property is outside the city limits. Investigation was ordered of seven other water connections requested by Hulse.

The council approved a vacation request by Police Chief Oran Chastain, starting June 16; approved purchase of six bookcases for the new Central Point library building, and discussed the possibility of obtaining state funds for city street work.

Beneficiary Payments Need Not Be Reported

No payments made by the Veterans Administration to any beneficiary needs to be reported on income tax forms, the local VA office announced Friday.

Income which is not taxable includes disability compensation, pensions received by veterans or their dependents, any type of GI insurance dividend or matured GI insurance payable to any beneficiary; educational allowances paid to veterans, burial allowances for veterans, and mustering out pay of recently discharged veterans.

4-H Club Leaders Handbook Available

Corvallis — A handbook for 4-H club leaders will be distributed to Oregon's 4,000 volunteer leaders, Burton Hutton, state 4-H leader at Oregon State college has announced.

The guide covers history, organization, teaching methods and instructions to help leaders at club meetings, Hutton says.

The handbook was compiled by Rosalie Mueller, state extension agent and other mmbers of the state extension staff at OSC. It will be distributed through county extension offices.
