## Westinghouse Rejects Proposal

Pittsburgh—(U.P.)—Westinghouse Electric Corp. rejected today a proposal by five governors that a two-man fact finding board recommend a settlement of the 122-day strike against the firm, but the company offered a four-point counter plan.

In telegrams to the governors, Westinghouse President Gwilyn A. Price declared that his firm's management "cannot delegate to outsiders, with no responsibility to the company's employees or stockholders, the right to determine the fundamental terms of the union agreement under which Westinghouse must live for some years and by which its competitive position is affected."

The governors had asked Westinghouse and the International Union of Electrical Workers to "cooperate" with the fact finding board which would study the dispute and then recommend settlement terms. The IUE accepted the proposal Sunday.

Price said his company would welcome the help of the governors and suggested the 55,000 strikers return to their jobs immediately.

**WALL STREET**  
 New York—(U.P.)—Trading in stocks ran around the three million share mark today for the first time since Oct. 11.

Prices moved up in the best gains since Nov. 14 and the value of listed shares rose by \$2,000,000.

The rise was touched off by the medical report on President Eisenhower and Wall Street jumped to the conclusion the President would run for reelection.
