Buxton School To Reopen Following Beating Charge

Hillsboro —(U.P.)— The strife-torn Scofield grammar school at Buxton, closed because of a flareup which resulted in the jailing of a school board member, is scheduled to be reopened tomorrow with a substitute teacher.

The Washington county grand jury late yesterday indicted Louis Forrest, 24-year-old board member, on an assault and battery charge. The charge stemmed from the claim of Mrs. Essie Robertson, 54-year-old teacher at the school, that she was beaten on Feb. 14. She appeared before the grand jury yesterday.

Board Members Resign

The school, which now has 14 students through the sixth grade, was closed temporarily. Austin Scrafford, county school superintendent, said it would open with a substitute teacher tomorrow morning until Mrs. Robertson returns.

All members of the five-member school board has resigned except Forrest. They included Mrs. Yula Fellas, a cousin of Forrest, who has had differences with the teacher.

Scrafford said he would deliver handbills announcing a special school election within 10 days.

Forrest has denied striking Mrs. Robertson. He said there had been a scuffle in the school over movement of some furniture and that she fell. Mrs. Robertson suffered head injuries.

Officials said there had been differences of opinion among Buxton residents for some time on many school matters.

European Death Toll Climbing Steadily

London — (U.P.) — The death toll in icebound Europe climbed steadily today with more cold and snow forecast for much of the continent while sudden thaws in some areas raised the new specter of floods and avalanches.

At least 771 persons have died in 17 countries since the Siberian-born icy front first moved down on Feb. 1. Property and crop damage also have been heavy.

France and Italy have been the hardest hit. France counted 183 dead and crop damages estimated at nearly $1,000,000,000. Italy reported 146 dead and estimated damages at nearly $80,000,000.

Unexpected warm weather loosed avalanches in the mountainous regions of Yugoslavia where 60 persons already have died in snowslides.

Huge Flying Saucer Reported Over Paris

Paris —(U.P.)— The French government sought today to solve the mystery of the "phantom of Orly" a gigantic flying-saucer-like object which whirled across the airport's radar screen at supersonic speed last Friday.

It was the third time in less than a year that the "phantom" has been charted on radarscopes at the busy international airfield outside of Paris. The object was described as about twice the size of the largest known plane, moved at times at an estimated 2,000 miles an hour, and hovered around the airport for about four hours.

Four Feared Drowned In Klamath River

Yreka, Calif. — (U.P.) — Four persons, including two children, were feared drowned in the Klamath river about 40 miles northwest of here, the Siskiyou county sheriff's office said.

Sheriff A. B. Cottar said an unidentified man reported seeing a jeep skid on an icy road between here and Happy Camp early yesterday and plunge into the swollen river.

Cottar said investigation established the jeep was carrying Paul D. Linderman, 45, his wife, Jennie, 41, their 10-year-old daughter, Paula Lee and an 18-month-old grandson, Robert Allen Erwin, son of Mr. and Mrs. Dell Erwin, all of Happy Camp.

Sheriff's deputies found the purse of Mrs. Linderman on the bank and sections of a canvas jeep top floating downstream. Dragging operations failed to recover the bodies or the jeep before nightfall.

Only Hotpoint Gives You All These Extra Conveniences and Quality Features

FOR THE WASHER

1. HANDY WOND-R-DIAL automatically regulates complete washing period. Lets you lengthen, shorten, skip, repeat or stop any part of the entire cycle.
2. ALL PORCELAIN protection against rust and corrosion—one piece battleship construction helps assure years of trouble-free operation.
3. DELUXE THRIFTIVATOR creates vigorous yet gentle water action. Water currents surge through tub, flexing fabrics so soil is thoroughly loosened and washed away.
4. JET-SPRAY RINSE loosens soil and suds. Clothes are pre-conditioned for Deep Overflow Rinse.
5. DEEP OVERFLOW RINSE floats lint, suds, and soil up and out of the tub instead of through the clothes. Leaves clothes really clean.

FOR THE DRYER

1. PRECISION ELECTRIC TIMER can be set for 15 to 60 minutes, plus 30 minutes extra period for hard to dry items. Shuts off automatically when selected time has expired.
2. SUN PURE CALROD HEATING UNITS for safe, even heat and fast economical drying.
3. SAFETY CUT-OFF SWITCH automatically shuts off drum and heating units if door is opened during operation of cycle. Resumes when door is closed.
4. ALL PORCELAIN CHASSIS AND DRUM provides a mirror smooth surface to pamper delicate fabrics—protects against rust and corrosion.
5. PLUG-IN FLEXIBILITY — May be plugged in and used on 115 Volt Circuit—or on 115/230 Volt Circuit for faster drying.
