Servicemen Wed British Girls - Eight Every Day

London — (U.P.) — American servicemen are marrying British girls at the rate of eight a day—a higher rate than during World War II.

Every month some 250 GI's march to the altar and promise to love and honor a British girl. There have been more than 5,000 Anglo-American weddings in the past two years, according to records of the Third U. S. Air Force, which represents the bulk of the 45,000 American servicemen in Britain.

"Maybe when they see that figure the girls back home will feel they're losing out," one airman said. "But there's no real cause for them to get mad. It's not that the girls here have anything over the girls at home. It's just that they happen to be here."

The rate is higher now than during the war, seemingly for two major reasons:

(1) At present, airmen serving in Britain remain for three years, compared with the few months they spent in any one place during the war.

(2) People are more inclined to think about marriage during peace than during war.

Ask the Americans who marry here why, and their answers are the same. "I was here for a while... I felt lonely... I started taking a girl out to the cinema and dances... we fell in love..."

T/Sgt. Ronnie L. Hall of Sanford, N.C., met his wife in September, 1948, and married her in February, 1949.

"I'm one of those guys who married an English girl, and I couldn't be happier," he said.

The pursuit is not all one-sided, however.

Mrs. Elsie Dunbar, an official of the British Women's Volunteer service, which devotes much of its time to making Americans in Britain feel at home, said that "most English girls regard an American serviceman as being a pretty good catch."

"There is the widespread idea that Americans make wonderful husbands and are more devoted to their wives than Englishmen," she added.

Mrs. Dunbar referred to a recent statement by Maj. Roscoe Wilson of the Third U. S. Air Force that many of the marriages were the outcome of improv-

of life in the United States and tend to imagine themselves destined for all-electric kitchens, luxury flats and Cadillac cars," said Mrs. Dunbar.

But most of the marriages are successful. There are no statistics on the number that fail but "the percentage is very much the right way," said a chaplain at one large U. S. base.
