### San Francisco Seeks Trade With Alaska

San Francisco — (U.P.) — San Francisco businessmen served notice today that they're going after a share of the lucrative Alaska trade long dominated by Seattle.

The local Chamber of Commerce jumped feet-first into the fight yesterday with its first "Alaska Day luncheon." More than 400 bay area businessmen ate reindeer steaks, king crab and baked Alaska at the affair billed as an "observance of the importance of San Francisco-Alaska trade relationship."

Guest speaker was Elmer E. Rasmuson of Anchorage, president of the National Bank of Alaska, who urged his listeners to turn their eyes toward business opportunities in the territory.

The chamber later disclosed that it was planning to send a trade delegation on a tour of Alaska this year.

### CAUTION URGED

Los Angeles — (U.P.) — Superior Judge Burnett Wolfson granted William A. Linsky, 81, a divorce from his wife, Fannie, 79, Wednesday to end a 56-year marriage. "Don't be in a hurry to marry again," the judge cautioned Linsky.

### Girl Makes Use of Radio For Leap Year Proposal

Rockford, Ill. — (U.P.) — Shirley Fisher, 17, took advantage of Leap Year Day to propose to her sweetheart over the radio Wednesday.

She got her man, even though the flabbergasted swain gulped in surprise when he heard Shirley's plea coming from his car radio.

Shirley wasted no words in

putting the big question to 19-year-old Marlin Green. "Marlin, this is Shirley," she said. "And I hope you're interested in getting married."

"If you are, call me at the station. I love you and I hope your answer will be yes."

Green showed he is good husband material by obeying Shirley's instructions to the letter.

He said he would make her a June bride.

Radio station WRRR had been broadcasting day-long invitation to any Rockford girl who wanted to claim her Leap Year rights over the microphone.

Shirley, nervous but determined, showed up at the station late in the afternoon. She told the announcers that she wanted

to marry Marlin and that he was working as a punchpress operator at the Abasco Products Co. plant.

Station officials got Green's superintendent on the telephone. They told what was in store for the unsuspecting youth and asked the superintendent to get him to a radio.

The superintendent obliged by

telling Green to go to his car in the company parking lot and turn on his radio.

The mystified workman obeyed and moments later was on the receiving end of a proposal.

Michigan, famed for its car production, also leads the nation in production of cereal foods, machine tool accessories, salt and furniture for public buildings.
