

Stevenson Prepares Full-Scale Drive on Ike's Health, Kefauver

Minneapolis, Minn. — (U.P.) — Adlai E. Stevenson took dead aim today on the President's health issue and Sen. Estes Kefauver's bid for the White House.

He set out on a strenuous, five-day stumping tour of Minnesota, where he and Kefauver will have their first head-on clash when the state's Democrats vote in the March 20 presidential primary here.

Attacks Policies

Stevenson got his five-day Minnesota campaign rolling with an attack on administration farm and labor policies last night. He was expected to set off more fireworks today with a major speech on the racial segregation issue at the University of Minnesota.

Before he even got to Minnesota, the Illinoisan served notice that he will not keep quiet on the question of President Eisenhower's health.

He charged that Mr. Eisenhower is asking the people to elect a "part time" President and that he spent 20 minutes in his Wednesday night TV-radio appearance "telling the American people not what he is going to do but rather what he is not going to do."

Amazed at Statement

Stevenson, who lost to Mr. Eisenhower in the 1952 election, said he was "amazed to hear him say on his return from

another long absence that he has fully performed the duties of the President for the past few weeks."

Everybody was willing to accept the fact that Mr. Eisenhower "would be temporarily unable to fully manage the hardest job on earth" after his heart

attack, Stevenson said, but now "he evidently proposes to make this condition permanent."

Stevenson refused to admit that Mr. Eisenhower's entrance into the presidential race has hurt his own chances. In fact, he said, it may prove a Stevenson boon.

Pope Observes 80th Birthday; Thousands Flock To Pay Tribute

Vatican City—(U.P.)—Pope Pius XII today observed his 80th birthday and the 17th anniversary of his election as spiritual leader of the Roman Catholic Church with prayers for the peace to which he has dedicated his life.

Thousands of pilgrims flocked to St. Peter's Square to pay tribute to, and receive the blessings of, the pope, now in excellent health for a man of his years despite a slight hoarseness developed Thursday.

In the Vatican, the pontiff received the homage of little children, members of the Sacred College of Cardinals and a group of high church and lay officials come to praise his life of services to church and humanity.

Cake From Children

This morning 200 children from 25 nations, including the

United States, presented the Pope with a birthday cake dotted with 80 candles. The ceremony was unprecedented in Vatican annals.

Ronald Charles Kimball, nine-year-old son of the Cairo station manager of Trans-World Airlines, represented the United States.

Following the cake-presentation ceremony, the pope received high lay and church officials. The group presented the pontiff a book of parchments containing essays of tribute to his life and reign.

Next came an audience to

the Sacred College of Cardinals. Among the foreign princes of the church on hand was James Cardinal McGuigan, archbishop of Toronto, Canada.

Around the world, 450,000,000 Catholics who look to the pontiff as their spiritual leader joined him in special prayers: For peace, for the persecuted millions of the "church of silence" behind the Iron Curtain, and for all those who suffer.

Except for the children's audience, today's ceremonies are of a private nature—the Pope had wanted no personal attention at all. The official ceremony marking his twin anniversaries is scheduled for March 11.

The Pope was working at midnight when his 81st year began, only a short distance from the third-floor apartment where he was born in the shadow of the Vatican. He went to his little red chapel to pray before retiring.

Grand Rapids, Mich.—Health authorities today sought the cause of a mysterious allergy that could turn an alcoholic into a teetotaler.

The allergy already has made abstainers of seven employees at a cabinet and hardware plant here.

The workers gave up drinking beer and liquor—at least temporarily—last fall when they found the beverages turned their faces bright red and gave them severe heart palpitations.

Workers 'Lit Up'

A new employee laid the case before the State Health department recently when he learned other workers complained they also "lit up like Christmas trees" after a little elbow-bending.

"Horseplay," said unbelieving health authorities. They suspected a prankster put antabuse—a drug which causes a violent reaction to alcohol—into the plant's drinking water.

A thorough investigation convinced them it was no joke.

Samples of floor sweepings, air and other possible sources of the allergy were sent to the department's laboratories. Other workers will be questioned when results are known, they said.

In Scattered Sections

The firm employs about 100 persons and the seven workers affected were in widely scattered parts of the plant.

George E. Tubich, regional supervisor of the Health department's division of Industrial Hygiene, said the reaction may be "synergistic." That means one drug is felt only when a second drug sets it off, he said.

"Any one of a million different things may be causing the allergy," Tubich said.

"We haven't had a complaint from a teetotaler yet," he added. "But if this keeps up we'll soon have a whole plant full of abstainers."

Mysterious Allergy Turns Alcoholics Into Teetotalers

Portland — (U.P.) — Sheriff Terry Schruken filed for mayor here yesterday by placing 123 nomination certificates with the city auditor instead of paying the \$25 filing fee. "I can use the money in my campaign," he said.

PGE To Disregard Pelton Ruling

Portland — (U.P.) — Portland General Electric company said today it would disregard statements of Oregon Attorney General Robert Y. Thornton and proceed with plans for Pelton dam on the Deschutes river. Thornton had claimed that the project was in violation of state laws.

Thomas Delzell, chairman of the board of PGE, said "it is difficult for us and our legal counsel to comprehend upon what basis Mr. Thornton, who is a lawyer, has been able to reach a professional opinion running exactly contrary to that of the highest legal authority in the land—the United States Supreme Court."

The high court had upheld PGE's right to proceed under a Federal Power Commission license, despite objections from state agencies. Thornton contended that Idaho Power company was also violating state law by proceeding with construction of a hydroelectric project in the Hells Canyon reach of the Snake river.

Thornton said neither firm received permits from the Oregon Hydroelectric Commission.

Man Sets Up Own Funeral With Minimum of Trouble

Pasadena, Calif. — (U.P.) — William H. Rost, 79, did not want to cause trouble for anyone.

Since the death of his wife about two months ago, he had become a frequent visitor to the Ives and Warren Mortuary which handled her funeral arrangements. This week Rost completed arrangements with Franklin Ives of the mortuary for his own funeral rites.

Rost drove his car into a driveway next to the mortuary last night. In the car's back seat was a suitcase containing a suit of "burying" clothes. Sticking out of the suitcase was a note addressed to Ives. It read: "Here is what's left. It's up to you now. I'm trying to make it just as easy as possible for everyone. Consequently I'm making a personal delivery to you . . . goodbye. Good luck."

Rost then placed a .32 pistol against his head and shot himself to death. Mortuary attendants heard the shot, walked out onto the driveway and found Rost.

A postscript on his suicide note took care of the final detail in his health arrangements: "Will you see that the gun in the car gets back to the house. Thanks."

Swearing TV Actor Sticks To Script

Hollywood — (U.P.) — Actor Lloyd Bridges stuck to the script last night in a live TV drama.

Two weeks ago Bridges touched off a furor in New York when he got carried away during an emotional scene and used two swear words, both described as "mild."

Bridges appeared last night on a CBS-TV "Climax" drama. He portrayed a man who confesses a murder to a priest. The actor was not "carried away" during his performance. He used no profanity.

HITCHCOCK FILES

Salem—(U.P.)—Phil Hitchcock, former state senator from Klamath Falls, filed his candidacy for the Republican nomination for U. S. senator yesterday afternoon.

News About Books From the Library

By MISS HELEN WEBSTER
Medford Librarian

For sincerity and honesty of presentation, for factual correctness, literary excellence, and a contribution to man's understanding of himself and the times in which he lives, a group of notable books published in 1955 has recently been selected under the sponsorship of the Public Libraries division of the American Library Association.

Among those books available in the Medford Public Library is "The World of Albert Schweitzer," by Erica Anderson, a vivid picture record of a great man and the worlds in which he lives.

"The World We Live In," a group of superbly illustrated articles about the earth and its natural wonders by the editorial staff of Life Magazine, is another of the year's notable books.

New Sea Book

Rachel Carson has given us a beautifully written and scientifically correct study of the strange and abundant life of the seashore between high and low tides in "The Edge of the Sea."

William Bridgeman tells us of supersonic flight at 15 miles above the earth in "The Lonely Sky." The sky is also the subject of Fred Hoyle's "Frontiers of Astronomy," discussing controversial implications of the new ideas in astronomy.

In "New Dimensions of Peace" Chester Bowles reviews the international scene in Europe and Asia. The author is a competent observer with vital ideas about United States foreign policies. John Gunther gives us important information about a vital area in "Inside Africa."

"The Tiger of the Snows" is an original version of the successful ascent of Mount Everest in 1953, told by Tenzing Norkay, the Sherpa, in collaboration with James Ramsey Ullman. A participant's account of the atom bombing of Hiroshima is given by Michihiko Hachiya in "Hiroshima Diary."

Two novels on the list of Notable Books are "Nectar in a Sieve," a realistic novel of Indian peasant life which contains emotional universals the world can understand, by Kamala Markandaya (pseudonym), and "The Cornerstone," by Zoe Oldenbourg. The cornerstone is Christianity on which real and believable characters are able to build in different ways.

"Life and Language in the Old Testament," by Mary Ellen Chase is an invaluable consideration of the Old Testament as a work of literary art and a keen analysis of the mind of an ancient Oriental people. This book is on order but has not yet been received by the Medford Public Library.

The most popular book of the entire list locally, and one of which the library owns several copies, is Anne Lindbergh's "Gift From the Sea." In poetic prose the author describes her search for inner peace and expresses insights which should help any woman reader to greater happiness.

You are invited to reserve any of the titles mentioned at the Medford Public Library or any of its Jackson county branch libraries.

Brucellosis Reactors Discovered in County

Sixty-seven reactors were discovered in Jackson county in 1955 through the Oregon federal-state brucellosis testing program, according to the state department of agriculture.

The number was .523 per cent of the 12,802 cattle tested. A total of 2,566 calves were vaccinated. Tests in January in Jackson county showed no reactors, according to Agricultural Agent Earle Jossy.

Slightly more than one-half of one per cent of the 296,852 cattle tested for brucellosis (Bang's disease) were reactors. Last year 1,635, or .55 per cent, reacted to the test, compared with 1,620 found in 295,107 cattle tested in 1954.

In another phase of the eradication program, 84,839 calves were vaccinated last year for an all-time high. In 1954, 74,868 were vaccinated.

Three Oregon counties—Wasco, Gilliam and Benton—were entirely free from the disease last year on the basis of testing done. Eleven counties had less than one-fourth of one per cent; eight had between one-fourth and one-half of one per cent; and five had between one-half and one per cent.

Reno Harold's Club Sold To SF Investor

Reno — (U.P.) — Fabulous Harold's club, the world's largest gambling house, was sold today to a wealthy San Francisco investor for a reported \$14,000,000.

The seven-story casino which has become a byword to gambling minded tourists from Maine to California was sold to Jules J. Agostini Jr., president of the Morgan and Agostini Properties Co., a San Francisco business management firm.

The sale was announced by Raymond I. Smith, major stockholder in the club. Smith will continue as general manager of the casino and as chairman emeritus of the board of directors.

The sale is subject to approval of Agostini by Nevada gambling control authorities.

It has been estimated that 2,500 different makes of autos have been manufactured in the United States.

LEGAL NOTICES

NOTICE OF SALE

NOTICE IS HEREBY GIVEN that School District No. 29 of Jackson County, Oregon, will sell at private sale to the highest bidder for cash at any time after the 10th day of March, 1956, the following described real property, belonging to said District and being situated in Jackson County, Oregon, to-wit:

COMMENCING 12.50 chains south of the quarter Section corner between Sections four (4) and five (5) in Township thirty-seven (37) South of Range one (1) West of the Willamette Meridian, and running thence south 3.00 chains thence west 3.20 chains; thence north 3.00 chains, and thence east 3.20 chains to the place of commencing, containing one (1) acre, more or less.

Prospective purchasers may submit bids in writing to the undersigned at her address: Coker Butte Road, Medford, Oregon.

Dated and first published this 24th day of February, 1956.

Eleanor D. Payne, Clerk
School District No. 29
Jackson County, Oregon

NOTICE

In the Circuit Court of the State of Oregon for Jackson County.

In the Matter of the Estate of Vinnie Kyle Cook, Deceased.

Notice is hereby given that the undersigned has filed his Final Account in the above entitled matter and the above entitled Court has fixed the 12th day of March, 1956, at 10:00 o'clock A.M. in the Circuit Court Room, in the Court House in Medford, Oregon, as the time and place for hearing objections to said Final Account and for the settlement thereof.
