LILLIAN SCHMIDT
Mrs. Lillian Schmidt, about 70, mother of Robert Schmidt, route 1, box 292B, was found dead in her trailer house at that address yesterday morning.

Mrs. Schmidt moved here last September to make her home with her son, and was staying in the small house trailer next to the family residence. Another son, Allen, Santa Barbara, Calif., also survives.

Investigators called by Schmidt included state police, the district attorney's office and the county coroner. They attributed the death to gas coming from a small stove in the trailer. Mrs. Schmidt had been in poor health recently, her son reported.

Bend Girls Stranded On Buses in Snow

Bend—(U.P.)—Snowdrifts and heavy drifts on the Santiam highway early yesterday morning stalled two chartered buses on the Cascade mountain pass with their cargo of 44 high school girls and their chaperones. The girls, all from Bend high school, were returning to their homes from Salem where they had attended a high school basketball tournament Saturday night.

The buses finally reached Bend yesterday morning after spending some six hours on the snowbound mountain. They followed a rotary snowplow down the steep slopes shortly after daybreak.

Miss Zola McDougall, dean of girls at Bend high school, said none of the girls was frightened, even though the buses were without heat and lights and there was no food. "They were very calm and collected and took it lightly, sleeping most of the time," she said.

RV Manor President Visits LA Institution

M. N. Hogan, president of Rogue Valley Manor, returned yesterday from Los Angeles where he gathered information from the controller of Pacific Homes, an institution similar to the one planned here by the firm Hogan heads.

Hogan stated that he spent the greater part of a day at Pacific Homes with the controller and discussed how the Los Angeles institution is financed and operated. He gathered figures on the costs, charges, financing, reserve setup and other pertinent information, and also discussed some of the management and operation problems.

Pacific Homes has been in operation about 12 years, Hogan reported, and has learned the solution to many questions which the local institution must solve.

"Our kitchen is open for inspection." That notice should be on the menu card of every restaurant. That would compel cleanliness. Many people would not eat in the restaurants they do if they had a glimpse of the state of the kitchen in which the food is handled. Food poisoning is on the increase and much of it is due to dirty restaurant kitchens.

Among the Married

Birth planning continues to increase in popularity. Some people plan astrological births. Others plan to have a certain period between births. It is claimed the best time of the year for a birth is in the spring. Dr. Alan R. Dafeo once said, "Children born in the spring have a low death rate in infancy. The

Lightning Strikes Home in Portland

Portland—(U.P.)—A bolt of lightning struck a northeast Portland residence yesterday in Oregon's potpourri of weather that also saw sunshine, rain, snow and freezing temperatures.

A chimney of the Sidney A. Murphy home was cut cleanly from the roof of the dwelling. Murphy at first blamed a jet airplane for the mishap until it was learned that the aircraft only happened to be flying overhead at the time the lightning struck.

WALL STREET

New York—(U.P.)—Railroad shares rose to new highs since Dec. 8 today on their best gains since Feb. 17.

They outdid the industrials percentage wise although the industrial average rose to an all time record high. The incentive was a 6 per cent rise in freight rates granted after the market closed Friday.

Utilities approached their bull market high too and were at their best level since July 29.

Barnes Nominated To US Court of Appeals

Washington—(U.P.)—President Eisenhower today nominated Assistant Attorney General Stanley N. Barnes to be a judge of the Ninth U.S. Circuit Court of Appeals.

Mr. Eisenhower also nominated Dr. Leonard A. Scheele for another four-year term as surgeon general of the Public Health Service.

Barnes, a former judge of Los Angeles Superior Court, has headed the Justice Department's anti-trust division since 1953. He is a native of San Marino, Calif.

Horses and Women

Many small women have great style sense. Innumerable petite females are superbly attired. However, when it comes to making those "best dressed women" lists, the tall females get all the breaks. The only short female ever to be named "the best dressed woman in the world" is the Duchess of Windsor. She is about five feet and weighs around 100 pounds.

So They Say

Insofar as secretaries are concerned, the most difficult bosses are those born under Cancer (June 22-July 23). Cancer males are extremely thrifty. Always thinking of how to cut down expenses when they should be thinking of how to increase business. They are system fanatics. They love filing cabinets. They have a passion for punctuality and punctuation. They never put off until morning a letter they can dictate at 4:45 p.m. All secretaries with Cancer bosses always have a large size package of aspirin tablets in their desks. Or, so say the stargazers.

Hint to Husbands

In his brilliant book of helpful hints on handling women, Leon Blum observed, "Never forget to make your wife believe you really love her or she will succumb to the natural temptation to try out her feminine powers on somebody else. A woman needs confirmation of her power."

Stalin's Death Anniversary Ignored

Moscow—(U.P.)—The Soviet press today ignored the third anniversary of the death of the late Premier Josef Stalin whose one-man rule recently was criticized by the Communist Party's 20th Congress.

Instead, today's issue of the party organ, Pravda, carried a summary of an article written by East German Communist leader Walter Ulbricht Sunday in which he accused Stalin of inflicting "severe damage" to the party and the Soviet Union.

Kaiser Speedboat Flips, Loses Record

Honolulu—(U.P.)—The Hawaii-Kai, a speedboat owned by industrialist Henry J. Kaiser, today was rated good "only for firewood," in the wake of a spectacular flipover when it seemed headed for a world unlimited hydroplane record.

The craft spun over yesterday on Keehi Lagoon after it had attained a speed of 193 miles per hour. The driver, Kenneth St. Oegger, 34, was thrown clear of the L-rushing boat and escaped with a broken leg and a black eye.

"He was way over the record when he dumped," said Kent Hitchcock of Ledo Isle, Calif., racing commissioner of the American Power Boat Association.
