**Word About Crash Received**

By R. E. NEALON  
Table Rock—Mrs. Ray Bosworth received a cablegram from the War Department at Washington, D. C., Saturday morning, Feb. 25, telling of the crash of an Air Force C-47 transport plane piloted by her son, Col. Claire A. P. Duffie, assistant to the Air Force chief of Staff at the American embassy in Madrid, Spain. No further news was received by Mrs. Bosworth until early Sunday morning, when a broadcast from a California radio station telling of Duffie and two others being rescued was picked up by a neighbor and phoned to her.

During the intervening time she spent many moments in fervent prayer and anxiety. A recent letter from his wife states that the colonel is in a hospital in Weisbaden, Germany, being treated for frost-bitten limbs and other injuries, caused by being 40 hours in a freezing snow storm, which piled up some seven feet of new snow on the already snow-covered peak, where he helped two others back to shelter. They were thrown from the plane during the crash. The Table Rock neighbors who shared her anxiety rejoice with her that although it will require a lot of courage and time to fully recover, he is making progress.

A combination party was held Friday evening at the Ray Doran home, celebrating the 20th birthday of Mrs. Schulz, and the 22nd anniversary of the coming of the Ray Dorans to Table Rock.

Mrs. Milford Vanderpool and son, James, returned Wednesday from Fellows, Calif., where they attended the funeral of Mrs. Vanderpool's brother-in-law, Fred Voorhigo, who died Feb. 25. Mrs. Vanderpool's sister, Mrs. Jane Roberts of Seligman, Mo., passed away on the same date.

According to a recent news story concerning the will of the late Judge Frank L. TouVelle, the major part of his estate was put in a trust fund for assistance to worthy boys who are to be recommended by the superintendent of the Medford city schools. Among other beneficiaries are two cousins of the judge, Mrs. William Isaacs, local resident, and her brother, Lloyd Williamson, who got the Jacksonville home and contents. The real property, consisting of orchard and farm land, has an appraisal value of \$72,500. The farm land here is leased by V. B. Bowman and son of the Medford area, who operate it as a cattle ranch.

Some of us like radio theater plays better than those on television, because we can use our imagination as to the actors' looks, which in most cases are better than they really look, especially on a television screen with a foaming glass of beer sandwiched in between the acts.

Charles Hilkey, the Sams Valley farmer and stockman, was here on business Monday. He

to be a success, it will replace much of the feed now purchased by dairymen.

The contraption is what could be called a grass incubator, where seed barley is placed in trays treated with chemicals and kept in a temperature of 72 degrees, where it sprouts and makes a growth of six inches in six days. At the end of the six days the six pounds of seed has grown to 42 pounds of feed that will furnish a days feed for two cows, replacing considerable grain and about half the usual feed of hay. Roscoe says one of his fellow dairymen has ordered three units of the gadget at a cost of about \$750 each.

Strange as it may seem, when one gets to the place where birthdays are things to forget, everyone else seems to remember them. On our last one we got reminders ranging from a greeting card picturing some nice fat skunks, to a miniature tractor minus a seat, which caused us to think it was a Benson. The dejected looking driver with the seat of his pants gone, looked the part, but he still had pants, so it may be an imitation. We will have to sniff around a bit to find what caused some one to get the skunk idea.

At the next meeting of the local ladies club to be held at the school house, Thursday, March 15, a plant exchange will be held. The regular meeting date has been set up one day. Mrs. William Bishop and Mrs. Don Wheeler will act as hostesses.

Mrs. J. S. Richardson put in several days as a substitute teacher last week in the Central Point schools.

At the annual meeting of the local Ditch company, held March 1 at the schoolhouse, all three directors were reelected, Orville Hamilton, Walter Leverette and Elmer Hull. Last years assessment of \$6 per acre will be continued.

During their stay here the Goodlins proved to be excellent neighbors, always ready and willing to help out other farmers in the pinches when help was hard to get, and the going was tough.

Roscoe Roberts, the Medford jack of many trades including dairying, was a recent hay buyer here. He was telling of a new method of producing feed, which he says he bought \$9,000 worth of in 1955. If it proves
