Camp Fire Begins New Projects

This week's observance by Camp Fire Girls in the Rogue valley of the 46th anniversary of founding signals the start of new and far-reaching service projects geared to the 1956 birthday slogan, according to Mrs. Jack Sukdorf, council president. The slogan is "Plant Seeds—Reap Friendship" and Camp Fire Girls here and through the nation will join forces to plant seeds, not only for friendship but for knowledge and for personal growth and development, the council head stated.

"Medford Camp Fire Girls will share in the organization's nation-wide birthday project of sending thousands of vegetable seed packets to countries in Asia," she stated. "Our groups also will join with over 400,000 Camp Fire Girls across the country in carrying on many other service activities, all of which are a part of the birthday project," she declared.

Typical of the projects described by Mrs. Sukdorf, which are to be launched in Medford will be the "adopting" of several invalid children. In "adopting" these children the Camp Fire Girls will bake cookies and preserves adapted from Asian recipes. These will be given along with explanatory letters and scrapbooks telling of their birthday project.

"Camp Fire Girls will learn about food—foods not only of America but of the rest of the world—their origins and legends surrounding them and their nutritional value," she said. "They will study the part that food plays in making America one of the foremost countries in the world," she continued, "comparing our food supply with that of Asia's and other parts of the world."

Visiting farms, agricultural experiment stations and seed houses is another part of the educational project described by Mrs. Sukdorf. Tours through packing houses, food processing and packaging factories, farm equipment plants, produce and grocers' warehouses and retail super-markets also are on the agenda she outlined.

"This will give the girls a picture not only of how America's great food supply is grown but how it is processed and distributed," she said. "They will then gather as much information as possible about food supplies in Asian and other countries and compare them with America's she explained. Food maps of the world showing the principle crops of each country have been made by Camp Fire Girls here and are now on display.

"Tom thinks I'm tops!"

Tom says he wouldn't trade me for a dozen Marilyn Monroes. He just marvels at how I manage to keep our house shining like a new penny and yet have time for so many other things. Really, it's simply a matter of finding faster, easier ways to get my housework done. My wood floors are a good example. I used to cringe at just the thought of all that messy, hard cleaning and waxing until a friend told me about how Bruce Cleaning Wax cleans as it waxes. Imagine, no floor washing at all. And my wood floors are just beautiful. You should try Bruce Cleaning Wax on your wood floors. It's really wonderful!
