The Medical Roundup

by Walter Alvarez

Emeritus Consultant in Medicine, Mayo Clinic
Emeritus Professor of Medicine, Mayo Foundation

A DRUG THAT STIMULATES MICE

According to Science News Letter (Feb. 11, 1956), Dr. H. Azimas of the Allan Memorial Institute, in Montreal, has discovered a remarkable drug, which, when injected once or twice into a mouse, will cause it to keep running for the rest of its life, except when it eats and sleeps! This is one of a series of remarkable new drugs that are now being discovered and which have either stimulating or disturbing or soothing effects on the brain.

Walter Alvarez

One wonders if this substance will serve to wake up people who are badly depressed. It might. But few will be eager to try it—with the possibility that they might have to keep trotting around for the rest of their days!

ALLERGY IN INFANTS AND CHILDREN

In a recent number of Modern Medicine, Dr. Norman C. Clein, of Seattle, noted that allergic troubles are common in infants and children. The manifestation usually seen is a rash on the face or perhaps body: The so-called eczema. With this there is likely to be vomiting, intestinal colic, gas, diarrhea, constipation, asthma or a non-seasonal hay-fever.

Probably the commonest cause of trouble in infants is cow's milk. If only mothers would nurse their infants as the Good Lord intended them to do they could save their infants from much distress and sometimes a life-time of suffering from allergic disease.

Dr. Clein went over the records of 216 infants suffering from cow's milk allergy and found 43 per cent had eczema; 38 per cent had spasm of the outlet of the stomach, with vomiting; 31 per cent had severe colic; 23 per cent had diarrhea; 19 per cent were constantly uncomfortable and fretty; 17 per cent were coughing, wheezing, choking and gagging; 13 per cent seemed always to have a cold in the nose; 6 per cent had an obstinate constipation; 7 per cent had asthma, and 3 per cent had enough sense to refuse to take the milk that was causing all their misery. There were four children who became toxic, apathetic and seriously ill.

Although 1 in 15 babies becomes allergic to cow's milk, today the fad is to put every infant on the bottle. One can hardly imagine any procedure more illogical.

That this allergy, begun in infancy, lasts into adult life was shown when Dr. Hinshaw and I found that 1 in 4 of 500 patients who came, one after the other, into our offices were allergic to cow's milk.

Most physicians on seeing an uncomfortable, unhappy, fretty, gassy and colicky baby will be inclined quickly to take him off of cow's milk to see what will happen. Usually, within 24 hours, the child will stop crying and will begin to look and act like a happy, well baby. As Dr. Clein says, one of the remarkable things in medicine is that many of us physicians, being able to eat anything with comfort, have never become interested in food allergy. Many have even been hostile to the idea.

(Continued Friday)

There's a new TV crime digest show for people who haven't time to sit through all the crime pictures.

It's very simply titled "Sherlock Holmes of the Highway Patrol Follows That Man Named "X" Who Is Living Three Lives For The Texas Rangers."

Little Daisy Sniders

Traction Firm Shows Net Earnings in 1955

Portland — (U.P.) — Portland Transit Co. and its subsidiary, Portland Traction Co., reported Wednesday they are free of debt and that net earnings in 1955 were equivalent to $1.50 a share on common stock.

In its annual report to stockholders, the San Francisco-headquartered corporation said net earnings for the year were $470,349, compared with $48,523 in 1954.

The improvement was attributed to a substantial increase in terminal freight and increased fares on city passenger lines in Portland. Patronage on passenger busses was less than the previous year.

Around Hollywood

By ALINE MOSBY
United Press Correspondent

Hollywood — (U.P.) — NBC unveils its blockbuster Sunday against Ed Sullivan: Stirring Academy Award-winning dramas starring eight chimpanzees.

Aline Mosby

If this doesn't put a dent in "Old Frozen Face" and his high rating on CBS, nothing will, according to gleeful inner-circle conferences at rival NBC.

The battle between the two television networks for that prime Sunday night time has become legendary. The "Colgate Comedy Hour" went down fighting last year. In January, NBC launched a new try. "The Comedy Hour," featuring various new comedians.

As Sam Fuller, producer of the new program, quietly sums it up, "When we first started the critics murdered us."

Comedy Not Funny

"One critic, in fact, wrote: 'Pat Weaver (head of NBC) promised a new kind of comedy on this show. It certainly is new. It isn't funny."

Recently the show perked up with the addition of Stan Freberg. Now "The Comedy Hour" unleashes its powerhouse—a repertory group of actors and actresses with four feet and long, curly tails. Their first offering Sunday will be a western drama called "High at Noon."

"We have Baron walking down the quiet street, stalking the killer, and Candy, the dance hall girl," said Fuller.

The chimps will wear costumes and act on miniature sets. They smoke cigars, go through swinging doors, take a shot of red eye, draw their guns.

The sequences were filmed, to guard audiences from that painful moment when animals fail to act on "live" shows. Trainer Gene De Troye, who uses the chimps in his nightclub act, directed them in the drama.

Producer Fuller doesn't expect Sullivan to "cut his throat in a phone booth" over the new show. "But we expect to get our share of the Sunday night audience," he said.

"The Comedy Hour" features a stableful of comics, a temperamental bunch for any producer to handle. I asked Fuller what his two-footed stars thought about sharing billing with the chimpanzees.

"I don't know," he admitted. "I haven's broken the news to them yet."

Strange As It Seems

by Elsie Hix

The highest average or mean temperature for a year, as recorded by the U.S. weather bureau, is 77.3 degrees, and the location—Tavernier, Fla.

California Assembly Votes for Flood Plan

Sacramento—(U.P.)—The California Assembly today on a resounding 64 to 6 vote defeated a proposal to cut from the state budget all money for the Feather River Project.

The amendment was proposed by Assemblyman Clark L. Bradley R-San Jose who said the question of water rights must be settled before the state spends a dime for the $1.5 billion project.
