

# Scientist Indicates Supersonic Plane To Succeed Jet Bomber

Los Angeles—(U.P.)—The chief scientist of the Air Force strongly indicated Saturday that a supersonic bomber is being designed as an eventual successor to the 650-mile-an-hour B52 heavy jet bomber now going into service.

Dr. H. Guyford Stever also said that development of an inter-continental ballistic missile will prove in many ways to be more difficult than development of earth satellite vehicles like those to be shot into space during the 1957-58 International Geophysical Year.

He predicted in a speech prepared for the Massachusetts In-

stitute of Technology Alumni Association here that the next 10 years will see development of combat planes that take off and land vertically.

**Nuclear-Powered Bombers**

He also forecast nuclear-powered bombers that will have "essentially infinite range." But he said there probably will not be nuclear-powered civilian planes because of ground handling and shielding problems.

Stever, who has the title of Air Force chief scientist, said after discussing the B47 and B52 jet bombers that "we are now considering the conversion in the next few years to bombers with super-sonic capabilities." He pointed out that one such bomber, the B58, is "known publicly to be under development."

The B58 is the prospective successor to the medium-range B47. The Air Force has not disclosed what it is doing about a supersonic bomber to replace the B52. **Would Fly 800 MPH**

A supersonic bomber would fly at least 800 miles per hour and possibly faster.

Discussing the earth satellite vehicle, Stever said it will have to reach a speed of 25,000 feet per second which is at least two and one-half times the speed achieved by rockets up to now. He said it is a task that will not "be tossed off with great ease."

The speed requirement for an intercontinental ballistic missile will be not much less, Stever said, and other problems will make it a "greater technical achievement than that of a small satellite."

The payload for a militarily useful missile will be much greater than that of a scientific satellite. The accuracy will be "considerably greater." And the problem of getting the missile's warhead back through the atmosphere and onto its target without melting must be solved.

# Salem Youths to Enter Pleas Monday

Salem — (U.P.) — Two 18-year-old Salem youths accused of the shotgun holdup of 15 women and children at a "birthday club" party near here Wednesday, will enter pleas in District Court Monday.

Complaint against the two teenagers, Earl Eldon Lane and Luverne Francis Truitt, was signed by Mrs. Glen Gentry from whose purse \$40 was reported taken during the robbery.

Bail for the pair was set at \$5000.

Officers said the youths entered the home of Earl Huber in Marion community brandishing a shotgun and wearing T-shirt masks. They fled with money, a .38 caliber revolver and brightly wrapped presents which they dumped into Turner creek after fighting a police roadblock.

Police said Lane had admitted 12 other burglaries in Marion and Polk county and had implicated Truitt, an airman on leave, in several of the crimes.

# Construction Worker Killed in St. Helens

St. Helens, Ore. — (U.P.) — Archie William Kneeland, Portland construction worker, was fatally injured here Thursday while working at the St. Helens Safeway store.

Kneeland was foreman for a Portland electrical contractor. He apparently tripped while working in the attic of the store and struck his head on a beam.

# Yreka Council Against County Sales Tax

Yreka—The city council of Yreka has gone on record as opposing a Siskiyou county sales tax which will be a discussion topic at the board of supervisors meeting on March 20.

The city council said that such a tax would encourage more California businesses to go to Oregon, where no such tax exists, since Yreka is so near the state line.

# Argentine Cruisers Collide Off Coast

Buenos Aires — (U.P.) — Two Argentine heavy cruisers bought from the United States were involved in a collision during maneuvers off the Argentine coast, it was announced officially Friday.

The 10,000-ton cruisers De Julio, formerly U.S.S. Boise, and General Belgrano, formerly U.S.S. Phoenix, both were damaged, but their fighting capacity was not affected, the government reported. There were no casualties.

The collision occurred Thursday night when one of the cruisers struck the other a glancing blow. Argentina acquired the ships from the United States in January, 1951.

# Man 'Delighted' Eden's Government Unpopular

Coventry, England — (U.P.) — A peer and member of Sir Anthony Eden's government said Friday night he was "delighted" the government is unpopular.

"If it were not so, it would mean it was not doing its job properly," said Lord Mancroft, Parliamentary undersecretary at the Home Office.

The first opera advertised by title on American soil was given in Charleston, S. C., in Feb. 1735.

**IRISH VISIT**—Prime Minister John A. Costello of Ireland places a wreath at the tomb of the Unknown Soldier in Arlington National Cemetery. He is in Washington, D. C., for a three-day official visit.

# On The Side

(Distributed by King Features Syndicate, Inc.)

To love as I love you:  
To feel the world,  
The bright beautiful, joy giving world.  
A blank without you.  
I have no hope that does not dream of you.  
I have no joy that is not shared by you.  
You are the star around which my thoughts revolve like satellites.

Letitia Landon.  
Kelly is a grand old name. However, there has been an excess of attention recently paid to one possessor of it. Let not this avalanche of acclaim cause us to forget the Kellys B. G. (before Grace). As for example, "King" Kelly, the "Babe" Ruth of his day. Or Kelly "The Rolling Mill Man." Or "Spider" Kelly, the gallant Ringman, and "Honest John" Kelly, the darling disciple of the Goddess of Chance. Or Walter C. Kelly, the brilliant vaudeville known as "The Virginia Judge." Then there was Billy Kelly, the great Buffalo, N. Y., sportsman. Also Mark Kelly, Damon Runyon's pal. George Kelly, the playwright. And "Long George" Kelly, the N. Y. Giants first sacker. Also Gregory Kelly and Paul Kelly, very able actors. Also Jimmy Kelly, the picturesque Manhattan night spot maestro. And Myra Kelly, clever writer of short stories. Last but certainly not least, there is Frank P. Kelly, the best fire chief San Francisco ever had.

# Says She

"May I offer a few objections as to attire which might possibly inspire some of my sex to cease making themselves ridiculous?" writes a feminine subscriber. "No female over 13 should be seen in public in matador pants. Those little, round, flat hats worn in the middle of the head by some women make them appear very silly and slightly moronic. As for those plump women who wear pants in public, they should be impressed with the truth of the classic couplet:

Girls With Fat Backs  
Shouldn't Wear Slacks

**Please Note**  
A sportscritic styles Swaps as "the greatest racehorse ever bred in California." Only a very callow commentator would be guilty of such a statement. The time has not yet come to es-

# By E. V. Durling

Estimate the extent of the greatness of this noble animal. Swaps is only four years old. So far, he has won only one handicap, an overnight affair at a mile and a sixteenth. He has yet to prove his greatness as a handicap horse.

# So They Say

The lucky number for Virgo (August 24-September 23) people is five. They should take five and five in the daily double and wager only on a Wednesday which is their lucky day. Their color is purple; their flower the violet. They make good nurses, interior decorators, writers, actresses and secretaries. They are critical and hard to please. As wives they are hard to handle. As executives, inclined to make life difficult for the help, or, so say the stargazers.

# Sidelights

Mr. and Mrs. George Goblen of Lucas, Iowa, were married for eighty one years. That is the United States record for a lasting marriage. . . . One of every ten proposals of marriage is made while the couple is dancing. It is said that the three tunes inspiring the most proposals of marriage have been "My Blue Heaven," "Stardust" and "Why Do I Love You?"

# St. Patrick's Day

# Too Much for LA Man

Long Beach, Calif. — (U.P.) Thoughts of the old sod apparently were just too much on St. Patrick's day for Irish-born, homesick William O'Connell, 32, as he strolled along a street.

"Sure, I'm glad you stopped me," he told motorcycle officer Richard Johnson. "I want to give myself up."

O'Connell was booked on a drunk charge while immigration authorities checked his story that he had been in the United States illegally for the last five years. He said he stowed away on a British freighter to Canada and then walked over the Canadian border.

Skin on the average human face reflects about half the light that strikes it.

# Israel Accuses Egypt of Series Of Gaza Attacks

Jerusalem, Israeli Sector—(U.P.)

—Israel accused Egypt Saturday of a two-day series of running attacks against Israeli settlements in the tense Gaza Strip border area.

Army spokesman Capt. Naftali Lewin said Egyptian forces struck twice Friday and twice Saturday, mostly against the Kissufim settlement which is a control point on the vital Israeli water pipeline into the Negev desert.

# Attack Camp

Egypt accused the Israelis of an attack on an Arab refugee camp in the Gaza Strip. A complaint lodged with the United Nations Mixed Armistice Commission said Israeli forces opened fire with automatic rifles against the Moghazi Palestinian Arab refugee camp and killed one Arab.

The Israeli charges pointed up the increasing activity along the narrow sandy border between the two countries.

Capt. Lewin said in Friday's action an Egyptian outpost opened up at Kissufim and Israeli troops at the settlement returned the fire. Later, he said, Egyptian infiltrators tried three times to get into Israeli territory near the Nirim and Zikim settlements along the Gaza Strip. They were put to flight, he said. The Israeli spokesman said there were no casualties.

# Rifle, Machinegun Fire

He said that in Saturday's action, Egyptian gunposts turned rifle and machinegun fire on Kissufim twice in the morning and three times in the afternoon when Egyptians tried to infiltrate Israeli lines. The infiltrators reached the outskirts of the village of Beary before they were turned back, Lewin said.

Meanwhile, Israel also accused Jordanians of spraying bullets into the Israeli sector of Jerusalem yesterday from the wall surrounding the Arab section of the divided Holy City. No casualties were reported.

# Three-Year-Old Boy Drowns in Cistern

Los Angeles—(U.P.)—The body of a three-year-old boy who drowned in three feet of oil in an abandoned cistern was found Saturday after two playmates of the youngster kept secret his death for almost 24 hours.

More than 300 sheriff's deputies and private citizens had searched for the boy, John Richard Sandoval, since he disappeared late Friday from his home in Rivera.

While the search was under way and the child's father expressed fears that the boy was a kidnap victim, five-year-old Philip French told his mother that "Ricky" had jumped into the cistern Friday.

eight-foot deep cistern, located about three blocks from the Sandoval home, and pulled out the child's body.

Philip French told deputies he, Ricky and another boy were playing when they discovered the cistern, which was covered by a 50-pound steel plate.

The first cable between the United States and England was completed Aug. 5, 1858, across the North Atlantic Ocean.
