

LEADING CONTENDERS for U. S. Ladies Senior Figure Skating Championship in Philadelphia, from left: Catherine Machado, Los Angeles; Claralyn Lewis, Colorado Springs, Colo.; Mary Ann Dorsey, Colorado Springs; Carol Heiss, New York, world champion; Tenley Albright, Olympic and defending champion, Newton Center, Mass.; Charlene Adams, Chicago, and Nancy Heiss, New York, a sister of Carol.

GOP Collegians Endorse Hitchcock

Portland — (U.P.) — The executive board of the Oregon College League of Young Republicans meeting here yesterday, endorsed the candidacy of former state senator Philip S. Hitchcock for the Republican nomination as U.S. Senator. The adopted resolution will now be sent to all college clubs in the state for further action. The action, although not entirely unexpected, was the first endorsement of a candidate for the May 18 primary election by any of the Young Republican organizations. The state Young Republican convention, parent organization of the college league, will hold its state convolve in Eugene next month. Leaders have expressed the possibility that a dispute may arise over the endorsement of a candidate for the senatorial post with some members favoring Hitchcock and others leaning toward the candidacy of Interior Secretary Douglas McKay, who also has filed for the nomination. The post is currently held by Democratic Sen. Wayne Morse, a man the Republican party is determined to oust in the fall election.

KANSAS CUTIE — Patricia Cutie, 23, of Kansas City, Mo., will represent her home town as "Miss Kansas City Press Photographer 1956" in the National Press Photographers Association convention at Chandler, Ariz., in April. Pat, who has been a TWA airline hostess on the Kansas City-New York run since 1954, photographs at five feet, six inches, 124 lbs. distributed at 38-23-37.

Women's Tennis Class Starts Tuesday at Y

The YMCA women's tennis class will hold its first meeting tomorrow, Tuesday, at the YMCA building, 522 West Sixth st., according to Mrs. Stanley Berger, director of women's programs. The classes will be held from 2 to 3 p.m. on Tuesdays and Wednesdays. Tod Tibbutt and Jerry Olson will be instructors for the eight week beginners course which will cover basic tennis techniques including stroke and serve. Instruction will be indoors to enable better student concentration, according to Tibbutt. There are vacancies in the class for more women who would like to learn to play tennis, Mrs. Berger said. Those wishing to enroll may register by attending the first class Tuesday, or, if unable to attend the first class, they should call the YMCA 2-6295, and have their names put on the attendance list.

was away from the house. The burglar apparently gained entry through a bathroom window which was discovered broken, officers reports indicated. A window screen on the south side of the house near a rear door was also found unhooked and a screen over a bedroom window had been forced open. The sheriff's office is still investigating the case.

California produces more gold than any other state.

GOOD CASE

Miami Beach — (U.P.) — Police believed they had a good case against Erwin Weber, 49, who went on trial in city court today on charges of possessing burglary tools. Officers reported when they arrested Weber in his hotel room they found 600 door keys, 800 blank keys and a set of locksmith files.

Sheriff's Deputies Investigate Burglary

Eva Mae Barnes, 2642 Springbrook rd., reported to the Jackson county sheriff Saturday night that her home had been entered and \$30 in nickles, dimes and quarters was taken. Miss Barnes estimated the time of the burglary between 8:30 and 11:30 p.m., when she

Phil Silvers Wins Three Television Emmy Awards

Hollywood — (U.P.) — Phil Silvers, a long-trying comic who has never collected movie awards, reigned as a controversial king of television today with three Emmy awards given by the Academy of Television Arts and Sciences.

The owl-eyed comedian of the CBS program "You'll Never Get Rich," set a record at the eighth annual Emmy awards ceremonies Saturday night by romping home with three gold statuettes as the best series actor, as the best comedian and for the best comedy series on television in 1955.

Nanette Fabray Wins The triple winner pointed up a month-long controversy in the television industry over the nomination balloting. Unlike the Oscar awards for movies, Silvers was entered in more than one category, and swept through the voting to take three gold Emmy statuettes.

Nanette Fabray, the comedienne of "The Sid Caesar Show," was another multiple winner with two Emmy awards for the best actress in a support-

ing role and for the best comedienne.

Miss Fabray as not nominated for the best actress in a series.

Lucille Ball won that award, accepted on the NBC-TV telecast of the event by one of the writers of the "I Love Lucy" program, Madelyn Pugh.

CBS Leads Networks Programs produced in New York more than swamped the Hollywood product with 17 New York shows sweeping the balloting compared with only seven programs produced in Hollywood.

In the network battle CBS was the winner with 12 programs. NBC followed with 11 and ABC with 1.

Perry Como was another double winner, taking Emmys for the best male singer and best program host.

Other winners were: Best program, "Peter Pan"; best variety series, "The Ed Sullivan Show"; best music series, "The Hit Parade"; best dramatic series, "Producers Showcase"; best children's series, "Lassie"; best daytime program, "Matinee Theater"; best news commentator, Edward R. Murrow; best special events, A-bomb coverage; best documentary, "Omnibus"; best audience participation series, "The \$64,000 Question"; best adventure series, "Disneyland"; best specialty act, Marcel Marceau; best supporting actor role, Art Carney; best female singer, Dinah Shore; best actor in a single performance, Lloyd Nolan in "The Caine Mutiny Court Martial"; and best actress in a single performance, Mary Martin in "Peter Pan."

Strategic Minerals Measure Introduced

Washington — (U.P.) — Rep. Gracie Pfost (D-Iowa) said today she had introduced in the House a bill to "keep the bottom from falling out of the domestic strategic minerals."

The bill would provide for the paying of bonuses to producers of tungsten, manganese, chromite, mica, asbestos, beryl or columbium-tantalum bearing ores under certain conditions.

Producers would be eligible for the bonuses if the office of defense mobilization and general services administration terminated purchase programs for the minerals. The bonus would equal the difference between the market price and the ODM-GSA price.

"Such a program would keep the bottom from falling out of the domestic strategic minerals market," Mrs. Pfost said. "Producers could go ahead with assurances they would not be left holding the bag."

An identical bill was introduced in the Senate by Sen. James E. Murray (D-Mont.), Mrs. Pfost said.

Snow Slides Bury Five Automobiles

Yakima — (U.P.) — A series of compact snow slides tumbled down on the White Pass Highway yesterday, burying five automobiles and trapping the three occupants of one car for nearly two hours.

The State Patrol said four of the cars were unoccupied when the slides hit along a half-mile area about four miles east of the summit. The occupants of the fifth car, Mr. and Mrs. William Joneschild of Richland and a child, were dug out of the snow by state patrolmen and volunteer helpers.

Mrs. Joneschild was taken by ambulance to the Yakima Hospital. Attendants said she suffered shock and minor injuries.

The strawberry is grown commercially in every state and in Alaska, too.

Search Continued For Missing Plane

Miami — (U.P.) — Coast Guard planes took off today on a sweeping air search for five persons missing since Thursday in a small plane lost in the island-spotted area between here and the western rim of the Bahamas.

The Coast Guard reported "negative results" last night when planes returned after nightfall from a day-long hunt through the maze of tiny islands where the missing aircraft might have landed.

Two socially prominent couples and their pilot took off from Eluthera Island, about 250 miles from here, Thursday afternoon for the two-hour flight to Miami and haven't been heard from since.

The pilot failed to file a flight plan, CAA authorities said, and it wasn't known the plane was missing until Friday when a search was started.

Aboard the plane were Mr. and Mrs. G. C. Corcoran of Miami and Washington, Mr. and Mrs. L. A. Grelling of Miami Beach and Tyler, Tex., and Pilot P. S. Barrow of Fort Worth, Tex.

Air pressure which at 2,116 pounds per square foot at sea level, diminishes to about 280 pounds per square foot at an elevation of 50,000 feet.

Federal Aid for Cattle Industry Eyed

Prineville — (U.P.) — A proposal for federal aid to the cattle industry will be drafted March 21 at a policy committee meeting of the Oregon Cattlemen's Association at Corvallis.

Ed Coles, secretary of the Association, said here today that the proposal will be referred to county livestock associations and a final statement will be sent to the National Cattlemen's Association.

Feelings of Oregon cattlemen were tested here Friday at a statewide meeting of the state's leading stockmen. Coles said aim of the federal aid proposals would be to remove excess beef tonnage from the market while providing a safeguard for the future.

Coles said cattlemen agreed at Prineville that specific government subsidies would afford an incentive for the heavy marketing of heifer calves of from 200 to 300 pounds.

Named to the policy committee were Garland Meador, Prairie City; Bob Lister and Harry Stearns, Prineville; Larry Williams, Canyon City; Irvin Mann Jr., Stanfield; and Kent Ma-gruder, Clatskanie.

Bear Creek Bridge Now Open to Traffic

Suncrest bridge over Bear creek near Talent is now open to traffic, Paul B. Rynning, county engineer, reported today.

The bridge was washed out in the December flood and crews have worked off and on since then as conditions permitted.

All road sections that were completely blocked to traffic as the result of flood and storm damage are now open, Rynning said.

The engineer also reported that construction is under way on a small bridge over an irrigation ditch at Biddle lane and McAndrews rd. Crews are building a small detour there.
