

Civil Rights Plans Completed

Washington—(U.P.)—The Eisenhower administration has completed a three-point civil rights program to recommend to Congress, it was disclosed today.

1. Creation of a Civil Rights Commission with subpoena powers to review complaints of violations.
 2. Establishment of a new Civil Rights Division in the Justice Department under an assistant attorney general. This would give more power and prestige to the Justice Department official handling civil rights matters.
 3. Legislation to open federal courts to civil suits against persons or organizations that deny or attempt to deny voting rights in any state.
- The administration proposal is regarded as less far-reaching than the general civil rights bill on which "discharge" procedure has been instituted by Rep. James Roosevelt (D-Calif.) If 218 members sign Roosevelt's petition, the bill will be forced to a vote.

Cyprus Eyes Reports Of Mysterious Arms

Nicosia, Cyprus—(U.P.)—Official sources admitted today that Field Marshal Sir John Harding is giving "serious consideration" to reports that Cypriot extremists are being supplied with arms by a mysterious submarine.

The reports, from a London source, appeared in local newspapers. They said British troops reported spotting strange lights at sea while patrolling the lonely east coast of Cyprus. And they claimed a captured member of extremist pro-Greek organization told security forces last week he had orders to wait for a submarine bringing arms to the island.

British authorities today warned villages at Pheraros, near Famagusta, that refusal to give information last night's terrorist ambush of a British patrol would bring a heavy collective fine. Two British troops were killed and three wounded in the attack.
