

Grange

Gold Hill Grange
The Gold Hill Grange met April 5 with a good attendance including several visitors. The Grange was called to order by Master Hermann Kamping. Voting for state officers was held and committee reports given. A report on the rummage sale held in Medford was satisfactory. We were sorry to have to accept the resignation of our secretary, Vera Kamping, who has so faithfully filled her office. This is the second year she has collected all dues and obtained the pennant for the Grange. Members of the Grange are interested in improving their grounds. They have installed a new system by the side of the hall, making much more parking space. His work counts in our community project. The Grange closed with retiring drill. The next serving committee will be Mrs. Loeffler and Mary Ann, and Lena Laricks.

Norman Taylor's "Wild Flower Gardening" describes the cultivation and garden use of American wildflowers from the rare Arbutus to the more common trillium, and even goldenrod, which can be made a garden highlight. **For Northwest**

TAKE THE "DIE" OUT OF DIETING!

"I'd rather die than reduce," confided the fat lady to her friend, as she sank her teeth into a second generous chunk of chocolate cake. An exaggerated statement? Sure...but no one likes the draggy, knocked-out feeling that results from harsh dieting. Yet many people seem to reduce comfortably, seem never to lose strength and vitality while they lose pounds. These wise "taker off-ers" get plenty of protein, vitamins and calcium—all essential food elements—while reducing their fuel-fat intake. In short, they drink plenty of milk.

When you reduce...
