

### Quadruplets Born To Puerto Rican; Doctor Shocked

New York (U.P.)—A 96-pound Puerto Rican woman whose twins are only one year old gave birth Monday to quadruplets in a New York hospital.

Officials at Flower-Fifth Avenue Hospital said Mrs. Carmen Medina, 25, and three of the quads were "doing fine." The fourth, and smallest quad, was in "fair" condition.

"I can't believe it," Ciprian Medina, gaped, Monday when told his wife had given birth to the quads, two boys and two girls. "We just expected one. I think I'd better earn more money."

Dr. Leonard Hirsch, who had suspected Mrs. Medina was carrying twins, said he was surprised when the third child was born and shocked when he saw there was to be a fourth. He thought for a time he was about to preside over the birth of quintuplets.

When Hirsch informed Mrs. Medina that she had given birth to quads she sat bolt upright on the delivery table.

The Medinas, who were married in Puerto Rico in 1947, came to the United States six years ago. Medina recently had to quit a job as a luncheonette counter-man to take a night job with a plastics company because doctors told him he was too run down.

The youngsters were placed immediately in an incubator. The girls weighed two pounds, seven ounces and three pounds. The boys weighed three pounds, three ounces and two pounds 15 ounces. The quads each are 15 inches long.

### Polish Prisoners Being Rehabilitated

London (U.P.)—Warsaw Radio announced last night that Poland's Communist regime already has begun to rehabilitate prisoners convicted in the Josef Stalin era.

The broadcast quoted Josef Cyrankiewicz, chairman of the Polish council of ministers, as saying "rehabilitation of people wrongly convicted already is under way."

Cyrankiewicz told his parliament, the broadcast said, that "deep changes" in Poland began more than a year ago and have intensified since the 20th Communist Party Congress in Moscow in February.

The first official indication that the anti-Stalin campaign had reached into Poland came last week with the announcement that several top officials had been relieved of their posts.

Then Sunday came the announcement that the government planned the release and reduction of sentences for 70,000 more. Cyrankiewicz' statement was the first notice that this already was under way.

### Pelton Project, Builders Rapped

Portland (U.P.)—The Pelton dam project in general and Portland General Electric Company in particular came under fire here last night at a meeting of the Save the Deschutes Committee. PGE is building the dam on the central Oregon stream.

Rollin E. Bowles, chairman of the committee, challenged state officials to stop construction of the dam. He claimed the power firm went over the heads of Oregon authorities and refused to submit to a hearing before the State Water Resources Board.

Bowles said the people granted PGE its charter and "they can take it away."

Ersine Wood, attorney, said the Supreme Court's opinion upholding a license granted by the Federal Power Commission was based on a five-year-old license and on the supposition that the project was solely on federal property. "The EPC permit makes the regulating dam a condition of the whole project. That's where they intend to impound the river and that part is on private property," he said.

### Tax Cut Possibility Declared Ruled Out

Washington (U.P.)—Republican congressional leaders said today after a White House conference that present administration estimates of the government's financial surplus appear to rule out any possibility of a tax cut this year.

Hopes for a tax cut had risen in Congress last week when the staff of the Senate-House Economic committee predicted that the federal surplus for the current 1956 fiscal year would run to about \$2,000,000,000 instead of the \$200,000,000 forecast earlier by the administration.

The administration's \$200,000,000 estimate had been made last January.
