Mysterious Death Being Investigated

Augusta, Maine — (U.P.) — Authorities Saturday awaited an autopsy report into the mysterious death of a Colby college freshman, son of a German nuclear physicist.
The badly-decomposed body of Jobst Wundt, 19, Winchester, Mass., was found in a hotel room in Augusta Friday night.
Officials said he apparently had been dead for several days. He had been missing from the Colby campus since Tuesday night.

The body was found lying in bed, clothed in his underwear, with the covers pulled up around his neck.
Kennebec County Atty. Frank Naiman said death was due to "either natural causes or self-inflicted."
However, officials said no weapon or poison containers were found in the room. They said no notes were left with the body.

The slightly-built youth was the son of Dr. and Mrs. Rolf M. Wundt, who came to the United States eight years ago from Germany. The father currently is engaged in nuclear experiments at Massachusetts Institute of Technology.

The family was in seclusion today.

Mass Rallies Set In Japanese Cities

Tokyo — (U.P.) — Some 1,750,000 unionists, Socialists and Communists will stage mass rallies throughout Japan next Tuesday in the largest demonstration in post-war history.
National police authorities reported Saturday that parades and rallies are planned in 611 cities and towns. The largest will be held here in the capital.

An estimated 200,000 persons will rally at Tokyo's Outer Garden of Meiji Shrine to hear speakers shout demands ranging from higher wages to a ban on nuclear bomb tests.

Then they will pour into the streets for Red banner waving parades.
The paraders are scheduled to wind past the national Parliament buildings shouting slogans condemning a proposed bill to reduce the size of electoral districts—a measure heatedly opposed by Socialist Diet members.

Police have refused to permit the May Day organizers to march the mob past the American embassy.
Authorities will mobilize steel-helmeted police squads to rush to any trouble spot.

Since the bloody anti-American riot on May 1, 1952, May Day demonstrations have been comparatively peaceful.
