Answers Sought to MacFadden Fortune

Dansville, N. Y. — (U.P.)—Did the late Bernarr MacFadden bury a fortune in cash on the grounds of his physical culture hotel here?

Or was he just out for some of the exercise he always touted when he was seen in a wooded section carrying a box and a shovel a few years ago?

The Bernarr MacFadden Foundation said Saturday it will try to find the answer to those questions in a treasure hunt on the 45-acre grounds the weekend of May 12.

Foundation President Edward Bodin of New York said MacFadden's former wife, Mary MacFadden, and his widow, Jonnie Lee, believe he buried \$500,000 in a metal box.

MacFadden was reported to be worth many millions while in the publishing business. But he was said to be in debt when he died last year.

FORECASTS DROP

La Paz, Bolivia — (U.P.)—The Ministry of Agriculture Friday forecast a 13 per cent drop in farm output this year because of droughts and frosts.

On The Side

(Distributed by King Features Syndicate, Inc.)

One bosom to recline upon,
One heart to be his only one,
Are quite enough for love,
What can we wish, that is not here
Between your heart and mine?
Is there, on earth, a space so dear
As that within the happy sphere
Two loving arms entwined?
—Thomas Moore

What major city in this country has the most aged public school building? It is difficult to top New York in that respect. On West Fifty-fourth st., Man-

hattan, is located Public School No. 69. James K. Hackett, the distinguished actor, graduated from Public School No. 69 just about 70 years ago. That is, with the class of 1886. The school is still housed in the same building it was when Hackett was a lad. Incidentally, I would like to see a record of the graduates of good old P. S. 69. No doubt it includes the names of many dis-

tinguished New Yorkers.

Vegetarians

It was none other than Horace Greeley who observed, "I judge that a strict vegetarian will live ten years longer than an habitual flesh eater, while suffering in the average less than half as much sickness as the carnivorous must." (Note—Greeley, a strict vegetarian, died at the age of 61. Not much of a longevity record. All of us know many lovers of steak and roast beef medium who are over 80. And feeling fine.)

Asides

Tiziano Vecelli, the Italian

painter, better known as Titian, who had the honor of having a type of blonde named after him, was still painting blondes at the age of 99! Shows what an interest in blondes will do for a man. . . . Frequent references are made to females who are "beautiful but dumb." The fact is that beautiful women are rarely dumb. Brainy people of both sexes are usually much better looking than unintelligent people.

Asking

Queries from clients. Q. What is the real name of the buxom entertainer who calls herself

"Dagmar"? A. Ruth Egnor. . . . Q. Come, come, Edgar, keep us not in suspense. What horse is going to win the Kentucky Derby? A. Head Man. . . . Q. What was the name of Prince Aly Kahn's mother? A. Theresa Magleano. She was the Aga Kahn's second wife. Incidentally, the current wife of the Aga Kahn, his fourth, is the former Yvette Labrousse who in 1930 won the bathing beauty title "Miss France."

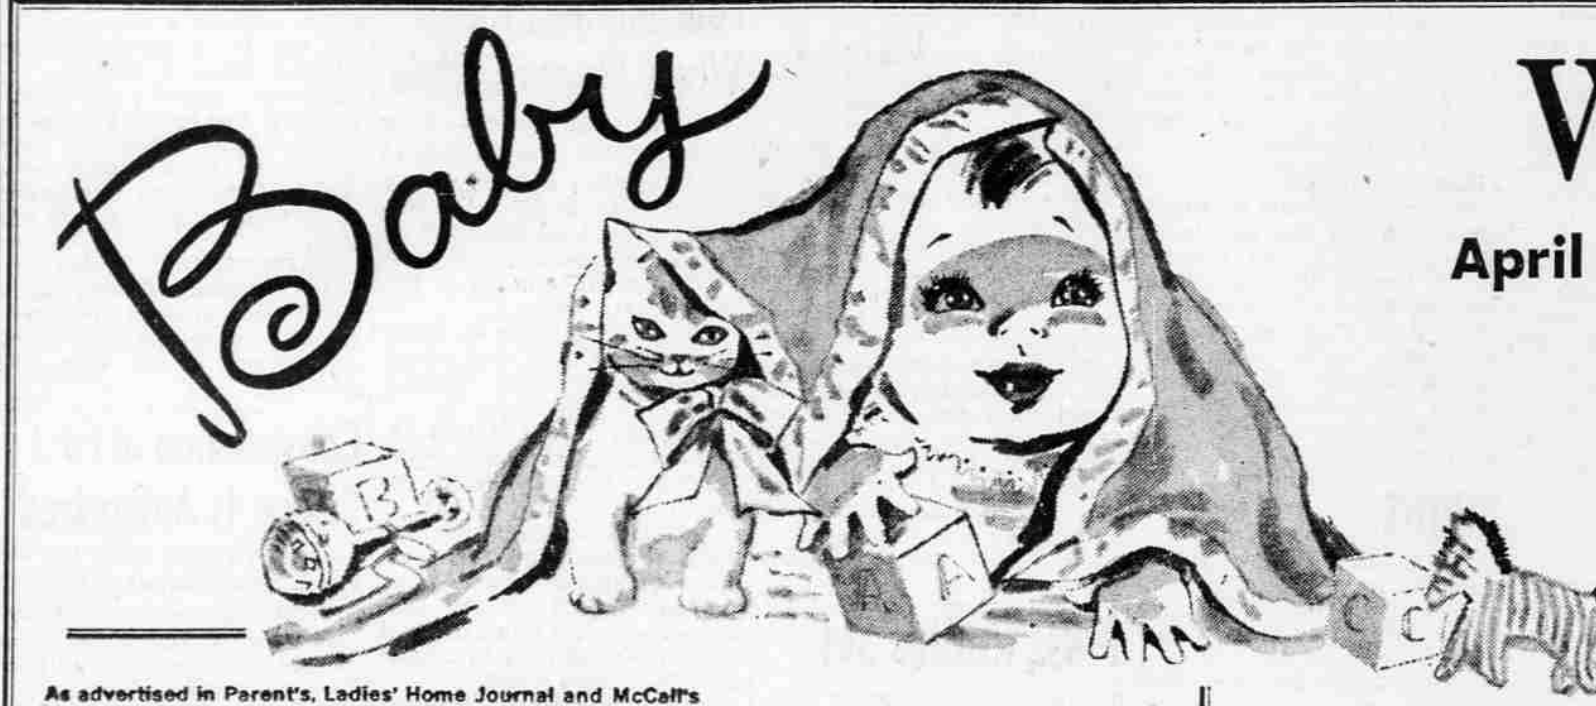

Slogan

As to the origin of that slogan of the Post Office Department, Don't misquote it. It was in 430

B.C. that Herodotus speaking of the Persian post riders, said, "Neither snow nor rain nor heat nor gloom of night stays these couriers from the swift accomplishment of their appointed route."

So They Say

Scorpio (Oct. 24-Nov. 22) men are greatly dependent on their wives and are lost in a fog without them. A Scorpio husband, floundering around a house, trying to take care of himself while his wife is away is a pathetic figure. Or so say the stargazers.
