Hat Designer For Princess Has Advice

By GAY PAULEY
United Press Staff Correspondent
New York — (U.P.) — The man who designed many of the hats in the tulle of Princess Grace of Monaco offers some general advice to any woman buying a new bonnet.

Maybe you don't look like the American-born princess. But Designer Don Marshall says if you follow one rule, you will choose a flattering hat.

"A hat always should be at least as wide as the widest part of the face," and the young designer. "Maybe the cheek bones form the widest part. Or maybe be the jawline. But watch the width."

Marshall made 23 hats for the Princess, her mother, sister and sister-in-law to wear during the festivities in Monaco last month. Seven were for the Princess. The designer said the former Grace Kelly looks good in most hats because her features are small and regular.

He offers these shopping tips. If your face is angular, don't pick a hat which will accent its sharpness. But if your face is round, then an angular hat is fine.

Hat's a Frame
If your face is extremely long, choose a fuller hat, one preferably a deep crowned hat which will only accent the length of the face. But if your face is short, you need the height. "Always remember," said Marshall, that a hat must be the frame for the face."

Watch also for what the color close to the face does. Marshall said that each skin reacts a little differently to each color. And just because pale pink is "big" this season, don't buy pale pink unless you're sure it adds a glow to your skin instead of accenting a pallor.

"The worst mistake a woman can make is being a slave to a trend," said Marshall, who went ahead to predict one trend—that smaller hats will return by fall. Asked what type of woman is the hardest to design for Marshall answered:

"The woman who hates hats, but has to have one. She never will wear a hat becomingly."
