

**New Farm Bill  
Seen Acceptable**

Washington — (U.P.) — Senate Democrats and Republicans agreed today that they have a compromise farm bill acceptable to President Eisenhower. It would authorize a \$1,200,000,000 soil bank requested by Mr. Eisenhower, but makes no provision for the controversial advance payment feature the President sought. The bill was approved by the Senate Agriculture Committee 13 to 1 yesterday. It also would boost price supports of feed grains 8 per cent this year. Sen. John J. Williams (R-Del.) cast the single vote against the bill. Mr. Eisenhower and Secretary of Agriculture Ezra T. Benson were known to prefer that some of the bill's provisions not be included. But none was considered objectionable enough to result in another veto. The President recently vetoed a Democratic farm bill because it included a provision for 90 per cent of parity price supports and other features highly objectionable to him. The high, rigid price prop feature was left out of the new bill.
