

I think true love is never blind. But rather brings an added light. An inner vision quick to find. The beauties hid from common sight. No soul can ever clearly see. Another's highest nobility part: Save through the sweet philosophy. And loving wisdom of the heart. —Phoebe Cary

How many immediate relatives have you? How much of your income is annually utilized for presents and entertainment of these relatives? Can you top Binnie Barnes, the actress? Binnie is one of a family of 16 children, all living. One of Binnie's married sisters has 14 children. Another has 12. That will give you an idea of what Binnie's Christmas present list must be. Then, of course there are the birthday and wedding presents. And the baby showers!

Asking

Queries from clients. Q. What is the height of the Duke of Edinburgh, husband of Queen Elizabeth? I claim he is not a six footer. A. You lose. The Duke's height is six feet, one inch. Q. Who was the manager of the Chicago White Sox team known as "The Hitless Wonders?" A. Fielder Jones. That remarkable aggregation did not have a 300 batter among its regulars. The team batting average was .228, yet in 1906 the "Hitless Wonders" won the American League pennant and defeated the Chicago Cubs in the World series.

About 90 per cent of the men you see walking Pekinese dogs after dark are over six feet in height. Why is it that women who have the smallest dogs always have the largest husbands? ... judge asked her. "I had hay fever," she replied.

So They Say

Libra (Sept. 24 - Oct. 23). Husband has roving eyes. They are the top flirts of the zodiac. Every day is ladies day with a Libra husband. The wife of a Libra has to be of a forgiving nature, especially at a cocktail party where there are several beautiful blondes. Virgo (Aug. 24-Sept. 23) husbands are clever business men, good providers, entertaining conversationalists, loyal and considerate but somewhat chilly as to affection. They need much warming up. Only a red-haired Scorpio woman can really inspire a Virgo to intense affection. Or so say the stargazers.

How high is a mountain? A couple of Brooklynites battling over this question ask for a decision. Answer is, if it is 1,000 feet or over in height it is a mountain. Less than that, it is a hill ... as to positions in which a young woman seeking a husband is most likely to succeed in acquiring a top grade spouse they are: 1. Air hostess. 2. Nurse. 3. Slogans

Sixty years ago H. J. Heinz of Pittsburgh was riding on a New York City elevated train when he saw a sign reading: "Twenty-one Styles of Shoes." The idea of a stock of wide variety appealed to Heinz as did the way it was publicized. And from that sign in New York he received the inspiration for his world famous slogan: "Fifty-Seven Varieties."

Republican Candidates For District Attorney

WALTER NUNLEY

We are pleased that Walter D. Nunley, the present District Attorney of Jackson county, will be a candidate to succeed himself for another term.

We feel that Mr. Nunley has done a good job over the past three years in a difficult position. The office of District Attorney is bound at best to be somewhat controversial, for the task of the D.A. is to enforce the laws as they are written, in accordance with the intent and purposes thereof. That sometimes involves interpretation of laws by the D.A. There will always be some people who will resent any enforcement of any law which affects them. In spite of these factors, Mr. Nunley has made many more friends than he has enemies during his three years in office, and more importantly he has given the people of Jackson county prompt and effective law enforcement.

It is our sincere belief that he has been and will continue to be completely honest in his conduct of personal and official affairs, impartial in listening to and handling complaints and prosecutions, and courteous to and cooperative with those who call upon the services of his office. Further, that he is not, and has not been and will not be tied to any special interest group, and that he has done and will continue to do his earnest best to enforce all the laws of the State of Oregon to the limit that the time and personnel and funds of his office permit. His character, judgment, human understanding and abilities are of such a nature as to merit his retention in this office.

Mr. Nunley faces the coming elections with three years of ex-

GEORGE RODE

I respectfully submit to the voters of this county my candidacy for the Republican nomination to the office of District Attorney. My qualifications for the position are: Master of Arts degree in English Language and Literature at Columbia university, law degree from Columbia university, five years practice of law in Massachusetts, five and one-half years practice of law here in Medford.

One basic issue is before you: the incompetency of the district attorney. This incompetency has had these direct effects upon you and your community:

One: Higher taxes. Incompetency costs money. The present district attorney, in public statements on April 26 and 27, 1956, said: "The budget of the district attorney's office for this county has increased approximately 400 per cent during the past three years. I've been very proud of that fact." These are the present district attorney's word, not mine. These are his sentiments, not mine.

I support wholeheartedly the Republican philosophy of economy in government, which we have seen so ably demonstrated on the national level; and I believe that this philosophy of economy is equally important to our county government.

Here is how your money has been wasted: One J. P. Cating was paid \$2,800 from July 10, 1953 to Sept. 12, 1953, out of county funds, for "investigations," at the district attorney's request. For two and one-half years the district attorney made no public mention at all of these "investigations." On April 26, 1956, the district attorney stated the J. P. Cating was an alias for one Walter Jeffries, a private detective. The district attorney said that Jeffries, alias Cating, made a "crime survey" here, and submitted a written report to the district attorney, for which he was paid \$2,800 from county funds.

This report has been seen only by the district attorney and a small group of private individuals. Our regular law enforcement officers, juvenile office, and other public agencies have never seen this report, and no indictments have resulted from it. For your \$2,800 you have received nothing.

Two: Chaotic and haphazard enforcement of our criminal laws. The district attorney's inability to convict defendants, or even to charge them properly, is a matter of record, and has been fully reported in this newspaper. His last failure occurred less than a month ago—State vs. Aikens.

The most shocking crime in recent years, the Hile killing, resulted in the murder trial of Jensen. This trial was handled by an outside prosecutor, whom the district attorney hired to do his own job—and who was paid \$2,034.51 out of county funds.

Three: Undermining the accused civil liberties. In an attempt to cover up these shortcomings, I believe the District Attorney has tended to deprive suspects of their constitutional rights.

Your vote for me in the Republican primaries will be a vote to end this incompetency, and to restore the office of district attorney to a position of efficiency and respect.

tremely valuable experience behind him in the conduct of the affairs of the office of District Attorney, and the residents of Jackson county now have a chance to avail themselves of that experience by retaining Mr. Nunley in office. We feel that he is well qualified to continue in this office, and we earnestly hope that he will be so continued in office by the voters of Jackson county in the coming elections.
