LINCOLN

The longest, lowest, most powerful Lincoln ever built

People who know fine cars are changing to Lincoln

More fine car buyers are changing to Lincoln this year than ever before in Lincoln's entire history—because they recognize that this longest, lowest, most powerful Lincoln of all time is unmistakably . . . the finest in the fine car field.

Naturally, most of these people are turning to Lincoln because of its fresh, trend-setting

new styling. But after owning Lincoln, they praise this car's other fine qualities.

They tell us—time and time again—about Lincoln's exceptional handling ease. They're surprised that such a big, roomy car can be so effortless to drive—and that wives actually prefer this Lincoln over the family's smaller car.

They tell us about Lincoln's outstanding performance, too—in dozens of ways. Those who have never experienced Turbo-Drive are astonished to find that an automatic trans-

mission can be so smooth . . . and those who take long trips say that this Lincoln makes the ride seem so much shorter.

And they tell us about roadability. They like the way Lincoln rides so firmly through a curve—and the freedom of taking any road they choose . . . instead of avoiding the bad ones.

If you've been thinking this is your kind of fine car, stop in and see us. We'll put a new Lincoln at your disposal any time you say.
