

**HELPING HAND**—Alexander Kerensky, 75, premier of the short-lived Russian Republic before he was deposed by the Communists, is shown in the Herbert Hoover War Library at Stanford, Calif. For the next 15 months he will work on research project about Russia undertaken by the institute. Kerensky mused that if he had been given the help Stalin received in World War II, the world would be a very different place today.

**Health Officials To Participate in Workshop at SOC**

Seven community public health service authorities have indicated they will participate in the school health workshop June 11-22 at Southern Oregon college.

Planning to attend are Wayne Smith, hearing consultant; Dr. David Witter, dental consultant; Dr. Eleanor Gutman, director of vision conservation section; Mary Ann Weidinger, dental hygienist and Francis Reiersen, health education director, all with the state board of health; Mary Bowman, health and physical education supervisor, state education department; and Don A. Beagle, Oregon Tuberculosis and Health association.

The workshop, being held for elementary and high school teachers for graduate and undergraduate credit, will be under direction of Miss Dorothy Muskey, Jackson county public health educator.

**Morning Sessions**  
Morning sessions will cover such subjects as physical examinations, health records, screening by the teacher and public health nurse, hearing, dental health, vision, communicable disease control and department services.

Special interest groups will meet in the afternoon to work on specific problems related to school programs.

Serving on the planning committee are John Stewart Jr., representing the Classroom Teachers association; Mrs. Myrna Frink, Principals association; Ernest R. James, Superintendents association; Mary Ellen Bell, public health nurse, Dorothy Collard, supervisor of public health nurse, Miss Huskey, health educator, and Dr. A. E. Merkel, health officer, all of the Jackson county public health department; and Dr. John McAuley, representing Southern Oregon college.

**Upper McKenzie Study Approved**

Portland—(U.P.)—A study of upper McKenzie river waters to determine their most beneficial use to the public has been authorized by the State Water Resources Board.

However, the project will be undertaken only if it does not interfere with the program already mapped out for the board's small staff budget.

The board took the action after receiving a request from the Lane County Parks and Recreation Commission that it participate with other agencies in "a coordinated joint survey of the park and recreation environment and potential of the entire McKenzie river drainage."

Another request, urging the board to "make a survey of the McKenzie area to determine its greatest value to the state as a whole" was received from the "Save the McKenzie" Committee. A U. S. Forest Service representative told the board that his agency would make a study of land productivity, which included recreational usefulness, in the federal forests of the McKenzie drainage.

**Bend Voters Reject Budget for Schools**

Bend—(U.P.)—Voters Monday turned down, 397 to 305, a school budget \$368,455 in excess of the six per cent limitation. The budget committee called a meeting for Thursday evening at which time it is expected the budget will be trimmed and re-submitted.
