

Italy's Christian Party Summons Urgent Meeting

Rome—(U.P.)—Italy's pro-Western Christian Democratic party today called an urgent meeting of its leadership Friday to decide what to do about the deadlocked city councils in key Italian cities.

Rome, Genoa, Florence and Venice headed the list of major cities where the Democratic center parties scored gains but failed to win a majority big enough to govern. The local elections were held throughout Italy Sunday and Monday.

In these cities and several smaller ones the only hope appeared to be to accept support from either the extreme left, the Communists or fellow-traveling left-wing, (Fascist and Monarchist parties).

Christian Democrat Premier Antonio Segni said before the elections the center parties would accept no such support from the extremes. The silver-haired premier said he feared that such support would weaken the position of his own middle-of-the-road government.

In Rome and in many other city councils, the extreme right-wing non-Fascists (MSI) held the balance of power between the evenly-matched center parties and the leftists.

Failing to find some sort of agreement in the deadlocked councils, the local prefect would have to appoint a commissioner to do the mayor's job. In such cases new elections within a few months would be inevitable.

The loss of a solid majority in certain key cities resulted from a change in the electoral law. Formerly the leading party automatically received two-thirds of the seats on a county council; now seats are distributed on a percentage basis.

It was the one big fly in the ointment in what government leaders considered an impressive political victory for the center parties in the first test of the Kremlin's new "policy of smiles."

Seaton Urged To Aid Western Mining

Washington—(U.P.)—Roy A. Hardy, president of the Nevada Mining association, urged Secretary of Interior-designate Fred A. Seaton Tuesday to keep a "good healthy mining industry in the West."

Hardy and Gov. Charles Russell of Nevada called at the White House today.

Hardy, of Reno, Nev., said he dropped by to congratulate Seaton on his new appointment. Russell, he said, conferred with Sherman Adams, President Eisenhower's assistant.

Asked if he planned to discuss the government's tungsten purchasing program with Seaton, Hardy replied that he wanted to offer his congratulations and to "talk about mining in general."

He said he wanted to stress to Seaton the importance of "keeping a good healthy mining industry in the West."

GIVES OIL CONCESSIONS

Caracas, Venezuela—(U.P.)—Oil companies in the United States, Europe and Asia have been granted new concessions in Venezuela totalling between 5,000,000 and 7,500,000 acres, the government said Tuesday.
