

**Stevenson Accuses Kefauver of Deceit**

Los Angeles — (U.P.) — Adlai Stevenson today accused his Democratic opponent, Sen. Estes Kefauver, with resorting to "tactics of personal abuse and deceit" to gain support for next Tuesday's crucial California primary.

The former Illinois governor returned here last night after campaigning in the San Francisco area. His verbal blast came after Kefauver charged Stevenson based his "entire campaign in Florida" on segregation.

"I'm sorry but not surprised that he has resorted to the tactics of personal abuse and deceit in these last days of the primary campaign," Stevenson told reporters in referring to Kefauver. "I say, not surprised because he did the same thing in Florida after the Oregon primary campaign."

The determined presidential hopeful said he thought the Tennessee senator wanted "to win too much."

**Steelworkers Open Joint Negotiations**

Pittsburgh — (U.P.) — The United Steelworkers Union and the nation's three top steel producers opened joint negotiations today in a souped-up drive to reach a contract settlement before a midnight June 30 strike deadline.

The precedent-setting talks would directly affect only U.S. Steel, Bethlehem and Republic Steel corporations. But any agreement reached by the firms would set the pattern for negotiations with 169 other steel companies with USW contracts expiring in 30 days. The top three firms employ more than half of the 650,000 workers represented by the USW in current talks.

The joint session will be held here today and Friday but then will be recessed until June 6 for the "neutral ground" of New York City.

**Walnut-Sized Hail Pelts Chiloquin Area**

Klamath Falls — (U.P.) — Hail stoned the size of walnuts pelted the area north of Chiloquin, Ore., yesterday. It was the worst hailstorm in more than three years.

Weather reports said the storm apparently covered a belt from Odell Lake to Chiloquin, a distance of some 70 miles. Cars driving through the area were forced to pull off the road.

Leaves were stripped from trees and garden and vegetable plants were driven into the ground. Crop damage was believed negligible because grain crops are not high.
