Bill To Prohibit Liquor Service on Airlines Expected

Washington —(U.P.)— Congress seemed in a mood today to put prohibition into effect, but only on airplanes.

At the urging of pilots and stewardesses, as well as temperance groups, a House Commerce subcommittee has quietly cleared a bill to call a halt to airborne tippling. It would end what one House member termed "flying saloon service" geared more to profits than aerial safety.

Approval Predicted

The full committee will take up the bill next week. Chairman J. Percy Priest (D-Tenn.) predicted today it will be approved and sent to the House floor for a vote.

There is general agreement that once it gets to the floor it will be whooped to passage. This close to the end of the session, however, it could get lost in the Senate.

The subcommittee acted recently after spokesmen for airline pilots and crews related case after case in which the intoxicated passengers jeopardized comfort, safety, and sometimes morals of other passengers and crew members.

Hostess Chased

A drunk set his seat to smouldering with a discarded cigarette. A hostess was chased by an amorous, lightheaded passenger into the forward cockpit. An inebriated lady traveler forgot she was a lady and began to peel off her clothes.

Not many airlines would be affected. Of 47 lines serving domestic routes, only six serve whiskey, some selling it at a dollar a shot and others serving it free. Two other lines serve wine only.

Ike Urges Heat On Postal Increase

Washington —(U.P.)— President Eisenhower urged Republican congressional leaders today to put the heat on to get his proposed mail rate increases passed this year.

He made the appeal during his weekly meeting with the leaders at the White House. The mail rate boosts face heavy congressional opposition in this election year.

Senate Republican Leader William F. Knowland reported that both the President and Postmaster General Arthur E. Summerfield threw their weight behind the rate increase bill now pending in te House.

They regard the bill as essential for a "round postal system," Knowland said, and necessary to the effort to achieve a balanced federal budget.

Bodies of Missing Fishermen Located

Bend—(U.P.)—Bodies of C. A. Happold and Ernest Harris, both of Sandy, Ore., were found this morning in the water of Crane Prairie Reservoir south of here.

Happold and Harris, the latter a Sandy city councilman, had been missing since Friday, May 25, when they left for a fishing trip to the irrigation project lake. Searchers found their bodies in a tangle of undergrowth and submerged logs at the eastern edge of the lake.

Roseburg Firm Bids Low on Ashland Job

Portland — (U.P.) — The State Highway Commission has reported a low bid of $7,840 for installation of 21 luminaires at the Ashland interchange section of Highway 99. Low bidder was Steeck Electric, Roseburg.

The first color photographs were made by James Maxwell, a Scotch scientist, in about the year 1861.
