## Hells Canyon Vote Scheduled Thursday

Washington—(U.P.)—The Senate Interior Committee today scheduled a vote for Thursday on a bill to authorize the controversial federal Hells Canyon dam on the Idaho-Oregon border.

Sen. Clinton P. Anderson (D-N.M.) ranking committee Democrat, told reporters he "believes" backers of the proposal for a federal dam have enough votes for committee approval.

A subcommittee headed by Anderson endorsed the bill last year. But the measure has been blocked in the full committee since, reportedly because of the opposition of Sen. Russell Long (D-La.) long since has left the committee.

Earlier, the House Interior Committee scheduled a vote on the bill for next Tuesday. Sponsors there claimed a one-vote margin for approval.

## Butler Claims Ike Made Health Issue In Coming Election

Chicago—(U.P.)—Democratic National Chairman Paul M. Butler said today that President Eisenhower himself has made his health a campaign issue.

Butler said he has been told that some doctors have "ridiculed" some of the medical reports being issued about the President.

Butler gave his views at a news conference called after the morning session of the Democratic party's Executive and Convention Arrangements committees. He said the presidential health question was not discussed in the committee meeting.

The Democratic chairman said that since he arrived in Chicago Monday he had heard that there was talk about the presidential illness reports among some doctors now gathered here for the annual convention of the American Medical Association.

"Some doctors," said Butler, "have been quite critical of some of their brethren and I think it should be a matter of concern for the AMA whether any of their members are being involved in politics."

He said he had heard that doctors here for the meeting had discussed the reports issued by physicians around the President before and after his recent operation. The doctors here, he said, think the other doctors "apparently do a terrific job of saying that anyone who has had a heart attack and an operation for Crohn's disease is much better qualified physically to be President than anyone else."

Iletis sometimes is known as Crohn's disease, taking its name from that of Dr. Burrill Crohn, one of the surgeons who attended Mr. Eisenhower.

Ridicules Medical Reports  
Butler said "whether or not they (the people) are buying that, I don't know. Whether it is deliberate I don't know. But it surely is apparent in the press."

Doctors here at the AMA, Butler said, had "ridiculed" some of the medical reports. He went on to say that "the President's medical history has been so completely handled in terms of propaganda by Mr. Hagerty (James Hagerty, presidential press secretary) who is a very expert propagandist that certainly one is entitled to have some serious doubts in his own mind about the medical opinions."
