## TABLE ROCK Ladies Club Holds Meeting

By R. E. NEALON

Table Rock—The Table Rock Ladies club met Wednesday afternoon at the home of Mrs. Walter Timm at TouVelle park, with 18 ladies and 15 children attending. It was to have been an outdoor meeting, but before its conclusion the participants were forced to seek shelter in the Timm home, being frowned upon by the weather with the delivery of a sprinkling of rain. Several members of long standing now living in other parts of the valley were present.

Mrs. W. M. Howsley returned Monday from a three week motor-trip that took her to the states of Nebraska, Missouri and Texas, where she visited relatives.

Sessions of the daily Vacation Bible school closed here Wednesday with a program at the school house in the evening. Prizes were given to children for memory work in committing to memory verses from the Bible. First prize went to Mark Bishop, and second to Candace Bishop with Joe Stalings a close competitor. Some 30 children, aged from 4 to 15, including several from Sams Valley, attended the sessions.

Bill Bishop arrived here Tuesday from Kansas City, Kan., via Ontario, Ore., coming to Ontario by air and the rest of the way by truck. He is now busy making arrangements to move in a few days with his family to their new home in Kansas City.

Roy Baker of the Phoenix district has been battling weeds in grain fields here during the past few days with his weed spraying equipment.

Chinese pheasants are doing extensive damage here to sweet corn and melon plantings, in some cases being so destructive that farmers carry shotguns when working in their fields.

The Egyptians had their ten plagues, but we don't find among them moles, gophers, mosquitoes or a game commission to turn loose domesticated pheasants to destroy their crops.

A picnic dinner arranged to be held June 3 on the spacious lawn at the home of the J. S. Richardsons, in honor of Mr. and Mrs. John Nealon on their 40th wedding anniversary, was held in the house owing to cool, threatening weather. The dinner was attended by about 50 relatives, local and throughout the valley. Two other honored guests were Mrs. Ernest Leavitt and Mrs. William Bishop, who have birthdays about the same date.

A wedding ceremony attended by some 50 friends, from the Upper Rogue area, was held at the home of Mr. and Mrs. Ray Bosworth June 1, when Robert Conger and Marjorie Hunt were joined in matrimony by the Rev. D. E. Millard. The couple and many of those attending were former neighbors of the Bosworths when they lived in the Persist district.

The Everett Brown family, Wayne and Lucile Smith, Mr. and Mrs. Frank Myers, Fred Smith and Miss Grace Bigham were among those attending a farewell party last Monday evening at Jackson Hot springs for the Tisdal family, soon to be leaving for Texas. Mr. Tisdal is being pastor of the West Side Church of Christ for a number of years.

Carl Vanderpool and Wayne Wyatt, members of the local Sunday school, recently gave the school grounds a good cleaning, removing and burning rubbish and mowing the weeds and grass.

We are sorry to report that H. W. Davison was taken to the Sacred Heart hospital last Wednesday and is at present quite ill with a stomach ailment.

Last Sunday we attended the birthday anniversary party for Mrs. Olive Dean at the old Dean home in the Willow Springs district. In the yard we saw a small monument telling of the Dean family settling on this farm back in 1851. It seems to us quite a distinction for a family to have kept the same farm for more than 100 years with some member living on it during all of this time. They must have paid a lot of taxes, been good citizens and an asset to the community or they would have worn their welcome out long before this.

We met many old timers at the party that we seldom see, only on such occasions, and conversations brought back to mind many incidents of happenings of long ago, some sad, but others quite amusing.

Among those we met was Jess Glass, an old time playmate, which reminded us of the time Jess worked as water boy for the Glass grain threshing outfit belonging to his brothers where he was supposed to keep a fresh supply of water on tap for the cook house and the 17-man crew.

The water system consisted of a 50-gallon barrel mounted on a two-wheel cart drawn by two horses, and was some task to fill

## Siskiyou County May Obtain Consultant

Yreka — The Siskiyou county planning commission will consider contracting a Redwood City planning consultant firm for preliminary studies on county land use and building requirements.

The commission decided to consider a six-month contract at its Friday meeting.

The contract would cost an estimated minimum of \$2,000. Laurence Wise, representing the planning firm, said that most of the cities within Siskiyou county could use part of their road funds for financing the planning. He cited San Mateo county as one in which county planning had been successful.

One New York furrier revives pony for fall. Henry Greenhut says it should prove popular for two reasons — it is much like river otter in light weight and sturdiness, and is low priced.
